TOOLS REQUIRED

- Wire cutter • Crimping tool
- Connectors (example: butt-connectors, bell caps, etc.)

CONNECTIONS TO BE MADE

- Connect the **Black** wire with a ring terminal to the chassis of the aftermarket radio.
- From the RCA jacks labeled "FROM REAR A/V INPUT" to the A/V input of the aftermarket radio:
 - Connect the **Yellow** RCA jack to the video in.
 - Connect the **Red** and **White** RCA jacks to the audio in.
- From the RCA jacks labeled "TO OVERHEAD SCREEN" to the A/V output of the aftermarket radio:
 - Connect the **Yellow** RCA jack to the video out.
 - Connect the **Red** and **White** RCA jacks to the audio out.

INSTALLING THE HARNESS

- Connect to the GMRSAV harness to the wiring harness in the vehicle located at the radio location.
