50XXX SERIES
Wide Top Rail Covers

50XXX Series Kits include everything required for installation except the BACKRACK™ Frame. Unlike the previous 925XX Series, a separate Hardware Kit is not required for purchase. Example: Backrack for 2016 Sierra would require 50120 + 15024.

See website for videos further explaining 40XXX Series vs. 50XXX Series.

40XXX SERIES
Inside Rail Clamping Covers

40XXX Series Kits include everything required for installation except the BACKRACK™ Frame. Unlike the previous 925XX Series, a separate Hardware Kit is not required for purchase. Example: Louvered Rack for 2016 Sierra would require 40120 + 12500.

** Indicates drilling required in Tonneau to expose front Stake Holes. More Tonneau's are compatible.

IMPORTANT INFORMATION - PLEASE READ BEFORE ORDERING

- Frames indicated above are BACKRACK™ frame style only
- 15021, 15022, 15024, 15026, & 15029 are reduced in height to sit cab-high when used with 50XXX Series
- All frames other than 15021, 15022, 15024, 15026, & 15029 will sit higher than the cab and will look odd on 50XXX Series
- If height clearance and looks are concerns, we recommend 15021, 15022, 15024, 15026, & 15029 with 50XXX Hardware
- 40XXX Series Hardware increases overall frame height by 1"
- 50XXX Series Hardware increases overall height by 2"
- All other frames are compatible with 40XXX & 50XXX but height increases 1" & 2" respectively
- All other frames specified for your truck are designed to sit near cab high with Standard Hardware
- Expect a 1" increase in height with 40XXX and 2" height increase with 50XXX

Discover other truck bed accessories on our website.
