Compact, Portable, and Ultra Light – Our chargers are about half the size and half the weight of other chargers!

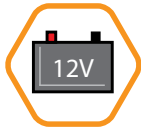

Reverse Polarity Protected – Battery Doctor® chargers are reverse polarity protected! Assures no damage to your battery or charger if the leads are connected incorrectly.

Simple and Easy to Use – Easy to follow instructions, clearly defined LED indicators and less complicated than others!

2-GALLON E-Z SMART DRUM FUNNEL

Smart Funnel Prevents Overfilling of Barrels

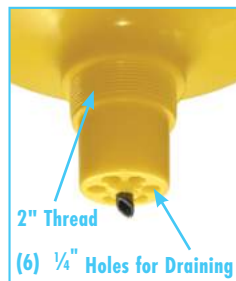

The Secret:

With the funnel extension, trapped air stops the liquid from filling to the top of the barrel. It leaves just enough room to add 2 gallons more to the barrel, which is the capacity of the E-Z SMART DRUM FUNNEL.

In order for the Smart Funnel to work properly, it must be removed immediately when fluid no longer flows freely.

This means the drum is full and cannot take any more fluid.
