BBB INDUSTRIES REMANUFACTURED RACK AND PINION

Restore like-new, leak-free steering performance

Our premium quality remanufactured rack and pinion assemblies enable service technicians to provide their customers with dependable steering performance for a superior value.

When we apply our OE experience and high standards to steering, the result is remanufactured rack and pinion products of exceptional quality for all makes and models.

- Components are inspected and tested for straightness and structural integrity
- Rack shafts are polished and housings are thoroughly inspected, cleaned and painted
- Sealing surfaces are polished, restored and checked for smoothness
- Seals and boots are replaced with all new parts
- All assembled units are end-of-line tested for leaks and steering performance

ELECTRIC POWER STEERING RACK & PINION AVAILABLE

- Full disassembly and inspection
- Electrically and electronically tested for input and output parameters
- New rack belt (where applicable)
- New boots and seals
