

**Installation Instruction Sheet**  
**Part# 60262/62262/60263/62263**

**Part # 60262-62262: 1967-1970 Mustang L/H inlet R/H outlet Flange Mount**  
**60263-62263: 1970-1973 Mustang**

Radiator uses 1968-1970, 24” Fan Shroud. Radiator is designed to bolt onto stock radiator support flange holes using supplied J-clips and bolts. If installing in place of 24” cradle mount radiator unbolt the top and bottom cradle supports and store these with stock radiator. Install the four J-clips onto grill side flange of Be Cool Radiator. Support radiator against radiator support holes and install bolts and washers into radiator mount from front side of the radiator support. If installing original fan shroud – transfer clips from stock radiator and use original mounting bolts.

62262 May be necessary to lengthen one transmission line at [radiator](#) end of line. Install lines in radiator transmission cooler.

62263 May be necessary to lengthen one transmission line at radiator end of line. Install lines in radiator transmission cooler.
