Entry Guard Installation Instructions

For: 1997& Up Wrangler

Part Number: 51049

This product is designed primarily to enhance the appearance of the vehicle and to shield the occupants from ordinary weather conditions. Do not rely in any way on the components of this product to contain occupants within the vehicle, or to protect against injury or death in the event of an accident. This product will not protect the occupants from falling objects. Never operate vehicle in excess of manufacturer's specifications.

WEAR SEAT BELTS AT ALL TIMES

Read and follow, precisely, all installation instructions provided when installing product. Failure to do so may result in a poor fit and could place occupants of the vehicle in a potentially dangerous situation.

Parts List	
Entry Guard	Qty - 2

Tools Needed
Alcohol and Clean Cloth
Pencil

Step One

Open the door. Use a clean cloth to clean the area in the bottom of the door opening with alcohol.

Place an Entry Guard in the door opening and align it as desired. Use a pencil to mark the position of the rear edge of the guard. Remove the guard from the vehicle and peel the backing off the adhesive (2 places). Replace the rear edge of the Entry Guard on the pencil mark and press the guard into position on the vehicle, working from the rear to the front. Rub the guard to make sure the adhesive attaches securely to the vehicle.

Repeat this procedure on the other side of the vehicle.
