

## Warranty Information

All B/G styles come with a lifetime structural warranty. The wheels are warrantied to the original consumer for a one-year period on the finish and 90 days "out of round." Wheels damaged from improper installation, driver abuse, or incorrect cleaning are not covered.

All B/G wheels have sixty degree conical seat lug holes and should be installed with the proper fasteners. All wheels should be test fit on the vehicle before mounting with tires. These wheels should not be used during winter snow conditions. Please reference the "wheel care" tab for cleaning directions.
