

INSTRUCTIONS

1. Position regulator adapter on shaft and tighten 10-32 set screws using a 3/32" Allen wrench. Adapter should be indexed at this time for handle positioning.
2. Install regulator adapter cover.
3. Index handle at one of the four positions and install the 1/4-28 button head cap screw with cup washer. Tighten using a 5/32" Allen wrench.
4. Position handle cap with O-ring to handle. Press handle cap into handle to hide fasteners.
