

MOUNTING INSTRUCTION E4-WM5-Y133A00

ATTENTION!

This BILSTEIN shock absorber must not be modified. It may be used for the application stated in the typelist only. If in doubt, call us before fitment.

Removal:

- Place vehicle on a wheelless lifting platform.
- Release upper shock mount.
- Lift vehicle in order to relax spring.
- Release bottom shock mount.
- Remove shock and spring.

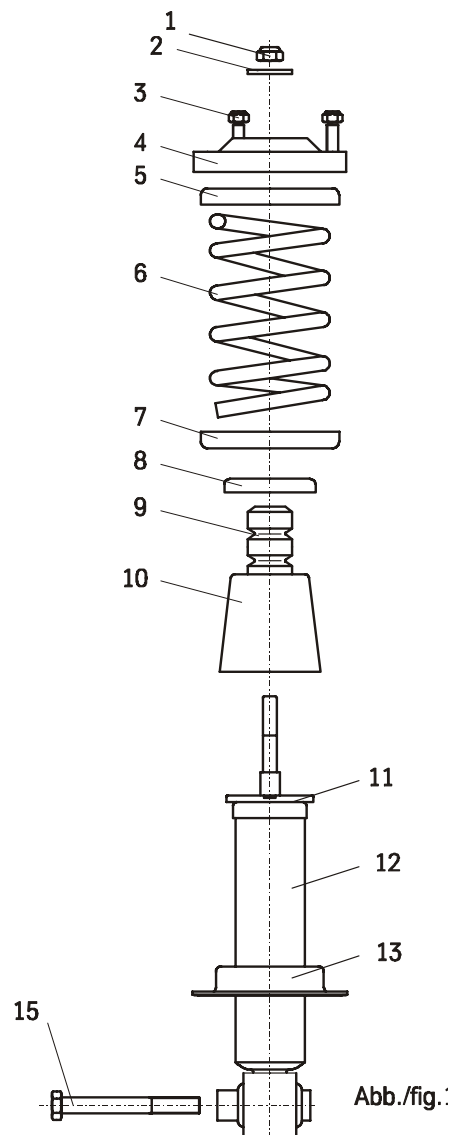

Fitment:

- Fix spring plate (4) at BILSTEIN shock absorber (3).
- Reuse original mounting parts.
- Fitting to the vehicle in reverse sequence to renewed.
- All self- locking nuts must be replaced.
- Finally tighten the bottom fixing bolt when the vehicle is standing on the ground.

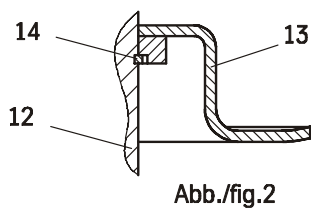

Attention: After fitting the shock absorbers, the caster and chamber must be checked and/or adjusted according to the vehicle producer's handbook. Check and reset brake power (load dependant) in accordance with the manufacturer's instructions. Also, the headlight adjustment has to be checked/ or adjusted.
