

blaque diamond

2018

Founded in 2008 . . . Achieved perfection by 2018! After a decade of raising the standards in the aftermarket wheel industry, Blaque Diamond Wheels celebrates its tenth year as a leading innovator by taking its mastery and artistry into new directions!

In addition to releasing four new designs for 2018, Blaque Diamond Wheels is proud to announce that we will now also cater to truck and SUV enthusiasts through our new 6-Lug fitments!

Blaque Diamond Wheels will also continue catering to high-end sports and exotic car lovers. In 2018, be on the lookout for two-tone bronze, brushed silver and a black-chrome lip option on two of our newest designs. All of which are sure to give your vehicle the touch it needs to set you apart from the competition.

Blaque Diamond Wheels continue to be designed in the U.S.A., and offered throughout the world by a committed team of customer service agents who ensure that the well-known Blaque Diamond standard is extended worldwide to enthusiasts across the globe.

Innovation has no limitation, 2018 will not be an exception!

Blaque Diamond has always offered some of the most unique and trendsetting designs on the market, but the addition of the BD-77 to our 2018 wheel line up may be our most influential move yet! The deep concave and elegant oval-shaped windows look like nothing we have ever produced before and these wheels are sure to turn heads wherever you go. The BD-77 is offered in 5 lug and 6 lug patterns to give any car, truck, or SUV that Blaque Diamond touch. With a maximum width of 11", we have engineered the BD-77 to fit a wide range of vehicles and accommodate fitments with larger brake calipers while still maintaining our superior concave aesthetic.

The BD-27 is the newest addition to our sought after mesh design lineup. This wheel offers a unique styled mesh look with rigid details, such as our new engraved Diamond logo and styled cutouts between the spokes. The BD-27 is also our first design to offer both our standard chrome lip and our brand new black chrome lip option. With available fitments up to 11" wide, we have optimized the BD-27 to fit a wide range of sport cars and exotics, while still providing one of the industry's True Concave wheels that will accommodate vehicles with larger brake calipers.

With a classic 5-spoke design and the addition of 6-lug fitments, the BD-15 is one of our most versatile wheels yet! The sleek face and lack of a lip give the BD-15 a sensible yet aggressive look, while still achieving our signature eye catching aesthetic. The versatility in both lug patterns and design make the BD-15 perfect for any luxury, muscle, or exotic car, as well as any truck or SUV. Even with a maximum width of 11", we have managed to maintain our superior concavity while accommodating vehicles with larger brake calipers.

The BD-17 is one of our most intricate designs yet, featuring a split 5-spoke design with styled windows and angular dimensions, the BD-17 is sure to draw attention to any car, truck, or SUV it is fitted to. With the Introduction of our New 6 Lug fitments we have created a specialty 6-spoke variant that is exclusive to the BD-17. Through our design process, we have engineered the BD-17 to fit a wide range of vehicles and accommodate fitments with larger brake calipers while still maintaining our superior concave aesthetic.

The latest trend in the wheel industry is the phenomenon of concavity. With Blaque Diamond's TRUE-CONCAVE line of wheels, we can fit any desired or depth with our BD11, BD12 and BD23 wheels.

The introduction of the BD11 adds a wheel with smooth and curving edges to the TRU-CONCAVE lineup. The BD11 is our most versatile wheel ranging from 8.5, 9, 9.5, 10, 10.5 and 11 inches of depth in a plethora of sizes from 19, 20, 22 and 24 inches.

The BD21 takes concavity to the next level with its sought after 11.5" of depth, delivering the deepest concave of any wheel in our lineup. Not only do we offer some of the deepest concavity in the market, we also provide custom offsets to give our customers the most desirable and aggressive fitment.
