WEHRLE

We are the worldwide service and sales partner for spare parts and remanufacturer for all well-known car brands.

As aftermarket expert with a large automotive spare parts portfolio, S-TEC has established itself internationally and earned a reputation for reliable distribution and maintenance services to OEM standards.

We offer

- Powertrain Systems
- Vision Systems
- Fuel Systems
- Electronic Systems
- Offroad Components
- PUCH G / PINZGAUER Parts - Service / Workshop

We set the agenda for the efficient mobility of the future with an uncompromising commitment to quality combined with perfection down to the last detail.

We believe that a modern business/management/com-pany is not only determined by the quality of its products but also by its managerial culture that is the result of commitment and sense of responsibility of every single employee.

S-TEC was founded in 2006 in the middle of the Austrian Automobile Cluster and has been operating since then with different product groups and brands in different customer segments.

In the automotive world, brands such as BLAU, WEHRLE and PUCH have been known for unique flexibility, innovation and quality for decades.

These values are also seen as core competencies by the other divisions and brands within S-TEC.

Powertrain Systems 4WD Systeme

S-TEC is recognized as one of the world's leading providers of all-wheel drives and has achieved an important competitive advantage, especially regarding the manufacturing and integration of complete systems. Tailored repair kits and components neatly round off the range.

Lovers of vintage and premium cars are always the first to appreciate an expert repair and maintenance service. S-TEC offers a professional all-wheel drive and manual transmission remanufacturing service for precious cars.

Powertrain Systems Vakuum pumps

S-TEC's vacuum pumps are designed and tested in cooperation with leading automotive OEMs. Based on decades of production experience the pumps have been tailored to the individual requirements of different automotive markets. Extensive tests demonstrate their superior performance, high reliability and durability.

Furthermore our vacuum pumps operate with maximum efficiency to achieve key commercial and technical requirements (e.g. fuel consumption, capacity, etc.)

Powertrain Systems Steering pumps

Power steering pumps can significantly contribute to the improvement of safety and steering behavior. S-TEC uses this potential and creates extraordinary results through continuous improvement and optimization. Our power steering pumps have been developed in cooperation with leading automotive manufacturers in order to tailor them to the specific customers' demands.

The combination of this branch-specific knowledge and years of experience, as well as state-of-the-art technologies, guarantee maximum efficiency and minimal abrasion.

Unsere Produkte Our Products

Vision Systems

Intelligent mirrors, Lighting and Reflections by S-TEC are synonymous with precision, fit and ease of installation. In operation, they provide safety and comfort.

At S-TEC, we marry advanced functionality to proven OEM standards with smart design.

Our understanding of visual aspects is by no means limited to the optimization of the field of vision, high resolution, brightness, reflections etc., it also encompasses the design of the products themselves.

Fuel Systems

Stringent safety and environmental standards for vehicles call for cap and reservoir systems with functionalities of an ever increasing complexity.

Striving to find solutions for the latest technological challenges, the S-TEC brand BLAU, a specialist for caps and reservoirs, does not solely rely on decades of experience. BLAU also engages in development activities and promotes the transfer of professional know-how: our R&D department maintains constant contact with international OEMs and exploits available synergies to build knowledge co-operatively.

WEHRLE Automotive Electronics

Committed to quality. For S-TEC's brand WEHRLE, this is not just a phrase, it sums up the very essence of our corporate philosophy. For more than 60 years, every WEHRLE product, every process and every customer relationship has had to pass the test of quality.

The renowned expert for electronics components and systems, internationally established in the automotive industry, is leveraging its experience to deliver comprehensive and rapidly available state-of-the-art solutions in an environment where stringent quality control is relentlessly enforced.

Unsere Produkte Our Products

MH 4x4 Offroad Competence Center Components

Real 4x4 lovers and their cars have only one rule: 100% performance in every situation and without compromise. MH4x4 allows also no compromise when we choose our partners and products. We want great reliability in every adventure our customers take. Our products have to keep their promises – we test it ourselves before it comes up to sale.

On top we provide customized service and support from our in-house experts, which have plenty years of offroad experience themselves.

Original quality

Offroad Competence Center PUCH G & PINZGAUER

Many years ago, the PUCH G & PINZGAUER cars were developed with passion and professionalism in Graz, but until today they are the loved icons for the offroad aficionados.

To protect them a very long life S-TEC established a unique offroad competence center with the exclusive knowledge of the former PUCH Customer Service. S-TEC is the number one sales representative for PUCH G & PINZGAUER spare parts worldwide with more than 30.000 parts in original quality.

Caps

Variants

- Fuel, oil, radiator caps
- Bayonet, thread
- Aluminium, stainless steel, steel, plastic
- With ventilation, without ventilation, valve ventilation
- Lockable, non lockable, master key system
- Bayonet nominal 30-100 mm

Tanksysteme Tank Systems

Our tank systems are designed for use in commercial vehicles as well as a solution for the construction and agriculture industry. They are made from steel, aluminum, or stainless steel with high-developed technology and processes in a large variety of forms and volumes. Through innovative manufacturing processes, we are also able to integrate various combinations of materials into a product, like in the fuel-urea combined tanks.

Tank Cross Section 640 x 560 Steel

Item-No.	Volume [L]	Length (L) [mm]	Length1 (L1) [mm]	Steps	Tank connection	Urea-combi	Urea SAT	Hydraulic-oil combi
