

BLOX Racing Muffler Delete kit is available for 2015+ Subaru Impreza WRX and STi.

The delete kit is designed to remove and replace the factory axle-back and the weight associated with the bulky mufflers. This kit gives enthusiasts a different option other than a cat-back system. However, the Muffler Delete still provides the enthusiast with comparable aggressive looks and the sounds and tones provided by a complete exhaust system.

BLOX Racing Muffler Delete

Applications

2015-2018 Subaru WRX
