

WHY CHOOSE BMC?

Wider filtering area

Maximum air permeability and higher air flow passage. This means better mileage and fuel efficiency.

Greater retention and screening

98,5 % air filtration. BMC air filter guarantees the containment of impurities as small as 7 micron.

Better performances

Increase the power and the performance of your engine.

Severe test activity

BMC carries out filtration tests in reference to the international standards for filtering (ISO 5011).

The choice of champions

BMC has equipped some of the most important teams in Formula 1, Le Mans, Moto GP and World Superbike.

Made of cotton

BMC air filter, made of natural cotton, can be washed, re-oiled and reused. It lasts for the whole life of your vehicle, reduce environmental waste and let you save money.
