BON

Over 200 New Styles & Sizes!

A Message from Bon Tool Co. President

C. John Bongiovanni, President

Looking Back ... and Looking Forward

The publication of our annual master catalog with the introduction of our updated product line marks a new season for Bon. It is a time we take stock in the past year and look forward to the start of a new construction season.

Last year marked our 60th year in business! It is not by chance that we have been around so long. Our success is built on a solid foundation laid three generations ago by my grandfather. Since 1958, our core principles have remained the same. We work hard to provide you with the best value in our industry. We do this by maintaining the highest standards of workmanship and customer care, combined with the integrity with which we conduct our business each and every day.

We are now looking forward with optimism to the spring construction season and we are especially excited to introduce two new trowel lines. Our **Steel City Finish Trowels** will set a new standard for concrete and plaster finishers, while our **Keystone Forged Trowels** will become the standard for masons everywhere. We are very excited to tell you more about these two new product lines, and the many other new products we have launched this year. Please contact your local sales representative or our friendly customer service department to learn more.

We sincerely thank our loyal customers for your trust in Bon. Know that we work hard to earn your confidence. With a firm commitment to our core principles, the Bon team is dedicated to being the preferred tool choice for construction projects worldwide.

Sincerely

Innovation

From the invention of masonry guides over 60 years ago to the launching of our Steel City Finish Trowels and Keystone Forged Brick Trowels this year, Bon is committed to the development and improvement of tools for professional contractors.

Value

We are committed to providing you the best value in the industry!

Our procurement department is busy sourcing the right materials for manufacture; and our engineers are at work designing and testing the tools in production. All this means you get our large selection of tools manufactured to the highest quality standards at a price point you can trust!

Service

Count on Bon for one day delivery to most locations from our two strategically located warehouses. Our friendly customer service team is available to answer your questions and to process your orders efficiently. We aim to ship all orders received by 2:00 pm EST the same day!

CATALOG NOTATION KEY

Box Quantity Notation

Look for the symbol showing the boxed quantity and indicating the order quantity for a lower price.

New Product Symbol

Look for the red NEW icon to indicate new products, new models, new sizes, etc. for 2019.

Shipping Asterisk - *

All Bon products coded with "C" or "T" include an asterisk. As noted at page bottom these products must ship common carrier. "T" items ship free on qualifying orders.

Proposition 65 - A

Look for the ^ symbol displayed with part number. This indicates a Bon product that may contain an element(s) known to the state of California to cause cancer and birth defects or other reproductive harm. You may contact Bon Tool Co. in regard to the specific material exposure.

Pricing shown in this catalog is current at time of print, and is subject to change without notice. Although every attempt has been made for accuracy, Bon Tool Co. is not held responsible for typographical, pictorial or pricing errors shown in this catalog.

Please note Bon Tool Co. manufactures and distributes tools and related products. None of the products sold by Bon Tool Co. are intended for human consumption, and exposure to all of the products is safe when used as intended and as instructed. It is our policy to comply with all applicable Federal, State and local laws.

Product Lines

Encompasses our full product line of premier contractor grade tools. We put our trusted name behind every product we sell.

These products have been identified by an overwhelming majority of contractors as the best quality and value available.

Product line of decorative concrete tools and materials to meet demands of this popular and growing trade.

Precision ground professional grade finish trowels made of Golden Stainless Steel, Carbon Steel, Razor Stainless Steel or Blue Steel.

Forged from a single piece of specially formulated carbon steel and heat tempered for uniform hardness that will not weaken.

Bon RiverWorks™ line of construction bars, sledges and other general jobsite tools are exclusively Made in USA.

Represents a line of imported tools that includes construction bars, sledges and other general jobsite tools.

An economical option for professional contractors at a lower price point, but having a better quality than DIY

This line is provided specifically for the DIY trade, at a value price point for the homeowner and non-professional.

Wha Lite of Bon

Darbies and floats constructed of lightweight aluminum or hollow extruded magnesium for easy maneuverability and less strain on the jobsite.

SPRAY SOK

Protective hood-type safety wear popular for multiple construction trades.

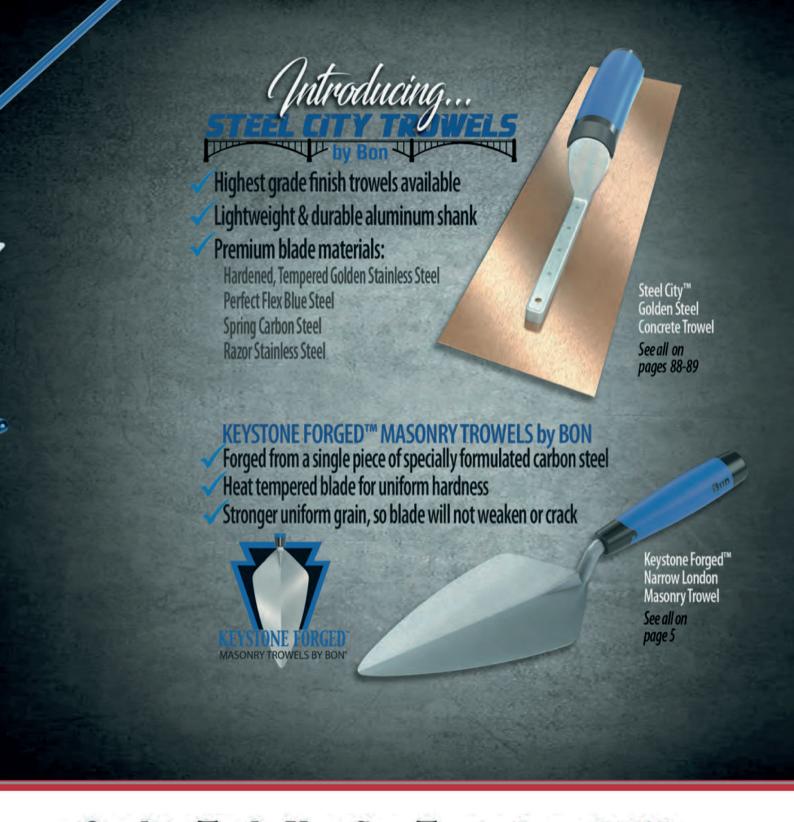

Private label products for select Bon items, such as grout bags, tool bags, line pins and line blocks.

Look for the Blue Handle . . .

Mason's Track Platform Hoist

- · Industry-proven for reliability, portability and versatility
- · Rugged enough to handle tons of material a day, with single payloads of up to 400 lbs.
- · Gas and electric driven power units are designed for safe, one-hand operation
- · High-strength aluminum extruded track provides years of service with minimum maintenance
- · Three section sizes allow assembly of up to 44 ft. (Must use ladder support)
- · Track sections are joined with splice plates, bolts and lock nuts
- No special tools required
- · 110V electric platform hoist will save labor and increase production

Super Heavy Duty Masonry Saw - MS510

- · Durable steel water pan
- · Wood skids that dampen vibration
- · Wide safety foot pedal for full operator control and safety
- Patented Sta-Level blade guard and quick-mount
 solid outling boad for procing gaving.
- solid cutting head for precise sawing
- Oversized heavy duty blade shaft and bearings
- · Includes 16" x 21" cutting table
- · Blade sold separately

27-223-B7	1-5/16"	11"	1-1/4"

Bon **Bull Pin**

27-259-B7

- · Ideal for aligning bolt holes when working with steel construction
- · Machined from quality alloy steel

1-15/16"

· Heat-treated for strength

7/16"

Bon

Broadhead Bull Pin

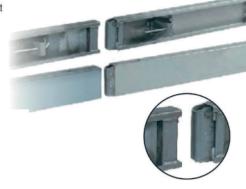

- · Forged, heat-treated bull pin increases efficiency by providing a larger striking surface
- · Head design also reduces chance of pin slipping from the hand when aligning holes
- · Angled head and smooth blending of radii increase strength and reduce the danger of chipping

Straight Steel Concrete Form

- · Solid noses slide into box ends for quick and accurat assembly of straights and corners
- · A stake is driven through the picket and wedged
- · 12 gauge steel

PART #	LENGTH	HEIGHT
12-700 -C4*	10'	4"
12-704 -C4*	10'	6"
22-118 -C4*	10'	8"
22-119 -C4*	10'	10"

Bon

Flexible Steel Concrete Form

- · Self-aligning for fast and easy forming
- · Four factory punched bolt holes in each rail for quick and effortless attachment to other forms, or accessories like division plates
- · Requires no time-consuming latching, locking, or fitting
- · Durable and long lasting with reinforced gussets, welded stake pockets, double flanges with full-height heavy steel noses
- · Seven single wedge, heavy-gauge steel stake pockets with built-in wedges with a bent welded tip making setup and removal quick

PART #	LENGTH	HEIGHT
12-787-C4*	10'	4"
12-789-C4*	10'	6"
82-241-B4	Replacement To	ggle Clip

Flexible Concrete Form

- · Ideal for decorative concrete
- . These high density plastic forms can be bent to 3' radius
- . Forms are 12' long and available in 4" and 6" heights
- · Use concrete form clamp to stake in place sold separately
- · Inserts extend 4-1/2" into adjoining form to keep forms aligned - included

PART #	LENGTH	HEIGHT	
22-248-C5*	12'	4"	
22-249-C5*	12'	6"	
12-719-B8	Concrete Form (Clamp	

Form Breaking Tape

- · Use for simple form removal and smoother finish
- · Can be used with wood forms to produce a "mirror like" finish

PART #	LENGTH	WIDTH
12-709-B6	108'	6"

Bon

Concrete Form Corners

· Make corners quickly and accurately

PART #	SIZE	HEIGHT	DETAIL
12-703-B4	24"x 24"	4"	Outside Corner
12-702-B4	24"x 24"	4"	Inside Corner

12-706-B4	24"x 24"	6"	Inside Corner

Bon

Form Spreader

- · Made from steel angle and assures square corners
- · Use with round 3/4" diameter steel stakes
- · Nail holes provided

PART #	LENGTH	QTY/PKG	
12-715-B4	6" to 24"	10	

Bon

Form Braces

- · Made from steel angle
- · Assures square corners
- · Use with round 3/4" diameter steel stakes
- · Nail holes provided
- · Sold in packages of 10

PART #	LENGTH	QTY/PKG
12-711-B4	18"	10
12-712-B4	24"	10
12-713-B4	30"	10
12-714-B4	36"	10

Bon

Concrete Form Clamp

- · Heavy duty steel form clamps for custom concrete forms
- · Secure clamps to your lumber
- · Works as a "slide-in" clamp for Bon Flexible Forms or as a "nail-on" clamp

· Uses 3/4" to 1" stakes (not included)

PART # 12-719-B8

Bon

Concrete Filler Form

- · Made from 12-gauge steel
- · Straight filler form design with top rail of 2-1/8" inside dimension and no bottom rail
- · Easily slip over a 2" rail of the straight flatwork forms they are used to connect

PART #	LENGTH	HEIGHT	
12-701-B4	5'	4"	_
12-705-B4	5'	6"	

Rub Brick with Handle

 Fluted silicon carbide rub brick is used for dressing down concrete

URETHANE MATS

BonWay™ Urethane

Mats are made from flexible

polyurethane in a variety of patterns,

texture, and sizes. Some patterns are available in multiple layouts as indicated by mat color.

Floppy mats are made in the same patterns as our texture mats, but are thinner for flexibility in tight areas.

For instructions on how to use these mats visit us online at www.bontool.com and click on product info

COLOR CHART

Colors shown are approximate of the appearance of various BonWay™ products. Variations should be

expected due to job site conditions and finishing techniques. Color samples shown appear glossier than finished concrete. A test pour should always be performed.

True Color Concrete Hardener

- · Surface applied dry shake color and surface hardener produces a hard, durable, abrasion resistant surface
- · Formulated to create a uniform consistent color

Application:

- · Apply using the broadcast method after concrete has been placed, screened, floated and excess bleed water has disappeared from the surface.
- Use alone or together with Bon's True Color™ Release Agent.
- · Coverage requirements vary according to the color selected and intended use.
- · Apply at a rate of 60 lbs. per 100 sq. ft.
- · Lighter colors may require as much as 100 lbs. per 100 sq. ft.

True Color Release Agent

- · Specially formulated, colored powder that prevents texture mats and rollers from adhering to freshly placed
- . Texture mats will not work without the use of release agent

- · Apply to concrete and the texturing tool after coloring application and while the concrete is in a plastic state
- · Generally 3.5 lbs. of material is required per 100 sq. ft.
- 5 gallon container covers approximately 800-1000 sq. ft.

Sonway

Liquiform™ Liquid Concrete **Release Agent**

- · Acts as a bond-breaker separating the concrete from the texture mats
- · Apply with a solvent-resistant pump sprayer
- · Leaves no surface finish · Covers 150 to 250 sq. ft. per gallon
- · Low VOC

Spread-Tex Concrete Resurfacer

- · Specially formulated, high strength, cement based resurfacer
- Self-binding
- · Twice the wear of ordinary concrete

Application:

- Add water and Spread-Tex™ is ready to use
- · Can be applied from 1/16" to 1/2" thick
- · At 1/8" thick, coverage is approximately 1 lb./1 sq. ft.
- · Apply with a trowel or spray with gun and hopper
- · Sold in 5 gallon pails containing 40 lbs. of material

Concrete Gel Cleaner

- · Non-corrosive, low odor, biodegradable gel used to prepare concrete substrate by producing a moderate surface texture
- · Use to prepare surfaces for the application of BonWay Water Based Concrete Stains
- · NOT RECOMMENDED for coating removal including sealer, paint or other film forming products
- · Apply with roller approximately 4-5 mil thickness
- · Coverage rate -250 sq ft per gallon

Gothway

Easy Color™ Concrete Stain

- · Concentrated stain that dilutes in acetone
- · UV Stable
- · Can be applied and sealed in one day
- · Semi-transparent finish allows for variations to enhance the overall look
- · Colors can be combined to expand color options
- · Suitable for interior or exterior applications
- · Apply to concrete that is at least 28 days old Fach 1 nint container yields 1 gallon after mixing.

PART # 32-440 -B6

True Etch Concrete Acid Stain

- · Deeply penetrates, permanently coloring the surface of cured concrete
- · Creates an uneven mottled appearance common to natural stone
- · Available in 4 colors for interior or exterior applications
- · Technical Bulletin (TB32350) is available by request

Application:

- · Resulting color depends on the many variables of concrete
- · Contains hydrochloric acid and reacts with the cement in cured concrete
- · Very old or weathered concrete may not contain the necessary chemicals to produce an acid etch
- · Coverage is approx. 150-200 sq. ft. per gallon, per application

PART #	SIZE	COLOR
32-352-T6*^	5 gallon	Roman Bronze
32-351-T6*	5 gallon	Seafoam Green
32-350-T6*^	5 gallon	Spanish Brown
32-353-T6*^	5 gallon	Onyx Black
32-358-B7	Fasy Pour Spout	

Special Note:

A contractor license may be required by your state to use this product. Follow all local state and federal safety requirements. Extra care must be taken when working with acid base material. Wear proper safety equipment.

HUDSON **Poly Acid Stain Sprayer**

- · Stable, 6-footed translucent tank with large funnel top
- · Two professional style nozzles
- · Strong, easy carry pump handle
- · 48" chemical resistant hose
- · Locking, control valve with in-line filter
- · 18" fiberglass/poly spray wand
- · Locking pressure release valve

Ironoxx[™] Integral Concrete Pigment

- Pigments are manufactured to the strictest quality control standards to assure uniform and consistent coloring
- Recommended for coloring ready-mix concrete and other masonry products including concrete blocks and pavement
- · Available in 10 and 25 lb. disintegrating bags

Application:

- · Disintegrating bags can be added directly to the concrete
- · Approximate mix ratios:
- 1 or 2 lbs. of Ironoxx[™] per 94 lb. bag of cement for light shades
- 2 or 4 lbs. of IronoxxTM per 94 lb. bag of cement for medium shades
- 5 or more lbs. of Ironoxx™ per 94 lb. bag of cement for darker shades
- · Using grey cement will result in "buff" or softer color
- · Using white cement will result in "brighter" or pastel color
- To ensure consistent color, keep all variables the same from batch to batch
- Variations in the mix design, mixing time, and curing conditions, will affect the final color
- Always perform a sample batch to confirm acceptability the color result

Epoxy Floor Primer Kit

- · A two part water based system used to prime concrete or masonry surface for the application of a Build Coat
- · Kit consists of 2 1 gallon cans of Part A and 2 -1 quart cans of Part B

Application:

- · A kit will provide 2 gallons of material with a coverage rate of approximately 230-320 sq. ft. per gallon
- Apply with 1/4" or 3/8" nap roller

PART #	KIT SIZE	COLOR	
32-930 -B5	2 gallon	Clear	

Epoxy Floor Build Coat Kit

- · A two part 100% solids epoxy coating designed to high build, colorfast and impact resistant floor
- · Build Coat is available in five colors and is suitable as a finish coat
- · Kit consists of two, 1 gallon cans of Part A and two, 1/2 gallon cans of Part B

Please note: Epoxy Build Coat is not UV stabilized and should not be used in sunlight impacted areas, unless coated with a solid color urethane sealer or 100% paint chip coverage.

Application:

- · Can be applied directly to the Epoxy Primer coat
- A kit will provide 3 gallons of material with a coverage rate of 53-130 sq.ft. per gallon depending on the required
- · Optional colored paint chips can be added to Build Coat application for a more decorative appearance
- · Apply with 1/4" or 3/8" chemical resistant nap roller

SORMAN

Clear and Solid Color Urethane **Sealer Kits**

- These polyester/aliphatic polyurethane coatings exhibit excellent characteristics for abrasion, chemical resistance, flexibility, weathering and UV stability
- · VOC compliant
- · Recommended for garages, auto service centers, warehouses, computer rooms, laboratories, aircraft hangers and other chemical exposed areas.
- · Clear Sealer is a one part, high performance, clear urethane sealer. Covers 320-800 sq. ft. per gallon
- · Solid Color Sealer Kit is a two part, abrasion resistant and UV protection for epoxy build coat. Solid Color Sealer can be coated with clear sealer for additional protection
- · Kit consists of two, 1 gallon cans of Part A and one. 1 gallon can of Part B. Covers 320-500 sq. ft. per gallon

Please note: Urethane Sealers will have a strong odor for 48 hours and should be applied in well ventilated areas only.

Application:

· Can be applied diectly to the Epoxy Build coat or paint Apply with 1/4" or 3/8" chemical resistant nap roller

Gator Grip™ Slip Resistant Additive

- Combine with most oil-based and water-based sealers, paints or stains to add slip resistance to walkways, poolsides, steps or patios
- · Finely ground polymers disappear in solution
- · Non-yellowing formula will not affect finish color
- · Use 3.2 oz. per gallon of sealer

Gator Grip for Pool Decks has heavier particle to ensure extra slip resistance in wet areas (i.e. pool decks, wash rooms, etc.)

		MIX	
PART #	DETAIL	RATIO	SIZE

Concentrated Concrete Cleaning Detergent

- Recommended for general purpose concrete and construction site cleaning
- Ideal for power washing concrete to remove construction dirt
- Removes natural biological stains including:
- mold, algae, mulch and pollen stains
- Works well on food and automobile fluid stains
- Use with a pressure washer or scrub brush
- · Mix with water at a 4:1 ratio
- Mix of 5 gallons will clean approximately 1000 sq. ft.

PART #	COVERAGE	MIX RATIO	SIZE
32-305-B5	1000 sq. ft. (after mixing)	4:1	1 gal./ yields 5 gal.

Gloss Restorer

- Gloss Restorer is a water-based product that restores and improves the original shine, gloss and luster of previously sealed concrete surfaces
- · Creates a super high-gloss appearance
- · Covers 300-400 sq. ft. per gallon
- · Meets the VOC requirements of the SCAQMD
- Allows for multiple applications without fear of 'blushing'

		VOC	VOC	SIZE
PART #	COVERAGE	CONTENT		
32-923-B6^	300-400 sf	<350 g/L	Low	1 gal.
32-922-B6^	1500-2000 sf	<350 a/L	Low	5 gal.

"Bio Release" Form Release

- Dual action, biodegradable, emulsified concrete form release agent suitable for use with all types of forming materials.
- · Contains 60% solids
- Use on steel, fiberglass, wood, and plastic (including elastomeric-PVC and EPS)
- · Will not stain or leave any surface finish
- Material must be clean and free of dust, dirt and hardened concrete
- · Covers 800 sq.ft. per gallon

		VOC

BLUE FOX BRUSHES

Bon's Blue Fox™ Pro Brushes are specifically designed for professionals of the Decorative Concrete and Ready-Mix industries.

The split end, polystyrene fibers are densely packed into the structural plastic block to hold more liquid. Chemical resistant and long lasting, these brushes are ideal for acid stain applications and ready-mix truck washing. Blue Fox™ Pro Brushes from Bon®, are setting the Standard in the industry.

Cut, Sewn and Stitched in Pennsylvania!

Spray Sok™ is the trusted name for protective hood-type apparel. Now these Sok head coverings are made in Pennsylvania with the finest materials sourced in the U.S.A.

The original Sok and longer chest length Hood Sok are made of all cotton. open mesh fabric that absorb moisture and allow skin to breath for maximum cooling and comfort. Hood Soks made of a flame resistant NOMEX fabric and permanently dyed black S.W.A.T. fabric are also available.

Can be positioned to expose just eyes, eyes & nose, or eyes, nose & mouth!

Flexible snug fit with no peripheral vision restriction!

PROTECTIVE HEAD GEAR-MADE IN USA

2019 Terms & Conditions

PAYMENT TERMS:

- . For established accounts, 1% 10 days net 30 days.
- · U.S. funds only.
- . Visa, MasterCard, American Express & Discover are accepted.
- . International Orders must be paid before shipment.

TERMS OF SALE

- · Payments are due 30 days from billing date.
- · Past due invoices are charged 1.5% interest per month on the unpaid balance (annual percentage rate of 18%).
- Customer agrees to pay all costs incurred by Bon Tool Co. in the enforcement of company's rights, caused by delinquent payment, including all attorney fees (minimum reasonable fee will be 15%).
- All claims for adjustment must be presented in writing no longer than 30 days from the invoice date in question, otherwise such claims are waived.

TIME OF DELIVERY

. Bon Tool Co. attempts to ship orders within 24 hours. Bon Tool Co. is not responsible for any loss or damage resulting from a delay in filling orders.

MINIMUM ORDER

· No minimum order.

QUOTATIONS

· Quotations on large quantities are prepared upon request.

FREIGHT TERMS

- . The freight code is indicated by letter in the product code.
- For a single destination in the continental USA, orders totaling \$900 net or more of "B" or "T" items are freight prepaid.
- . Product codes containing a "C" label do not qualify for prepaid freight.
- · International orders will be shipped FOB Gibsonia, Pennsylvania, USA.
- . Bon Tool Co. will determine the routing. Special routing requests may cause additional shipping charges on the customer's invoice.

SHIPPING RESTRICTIONS

- . Items coded with a "B" can be shipped by UPS.
- . Items coded with a "C" or "T" must be shipped via Common Carrier.

RETURNED GOODS

- · Returns must be authorized in advance.
- Indicate on all paperwork and packages the Return Goods Authorization number (RGA) that was supplied by Bon Tool Co. Include a copy of your invoice or packing list.
- A 10% restocking charge will be deducted from the return credit.
- · Customer is responsible for return freight charges.
- . Items must be returned in new condition, within 30 days of invoice date.

SHORTAGE, DAMAGE OR PROOF OF DELIVERIES

- . Delivery is FOB shipping point.
- Title of product transfers upon delivery to carrier at point of shipment.
- . In case of damage or shortage, notify the delivering transportation agent and file a claim immediately. All claims must be made within 30 days.
- . Bon Tool Co. will assist the customer in filing claims for unusual losses.

LIABILITY

- Bon Tool Co. is in no way liable for claims in incidental or consequential damages connected with the manufacture, sale, delivery or use of any of its
 products.
- . Follow all applicable ANSI and OSHA Codes and Regulations for use with all Bon Tool co. products.
- All photographs and drawings are for illustration only. Bon Tool Co. is not responsible for typographical, pictorial or pricing errors in this catalog or any Bon Tool Co. literature.

COPYRIGHT

- . The Bon Tool Co. catalog and all company literature is copyrighted.
- . No portion of the catalog or literature may be reproduced without the express written permission of Bon Tool Co.
- · Violation may result in prosecution.

EXPORT SERVICES

- · A pro forma invoice showing CIF can be prepared upon request.
- Payment for international orders is accepted in US funds only via wire transfer, credit card or other specified method.
- . Bon Tool Co. has the expertise and experience to ship orders worldwide.
