

InSight Hybrid Beam Wiper Blades

BOSCH

Invented for life

Enclosed hybrid construction minimizes gaps for less snow and ice build up

Premium hybrid design utilizing Bosch beam expertise, unique in the market

Patented internal tension spring provides consistent pressure for improved wiping performance and longer life

Introducing **Bosch InSight** Hybrid Beam wiper blades. These blades provide enhanced performance in all driving conditions, and can be an upgrade for your customer's original equipment hybrid windshield wiper blade.

This innovative hybrid beam technology offers:

- ▶ Streamlined hybrid design and graphite coated natural rubber for enhanced wiping performance in all driving conditions
- ▶ Precision contoured tension spring improves windshield contact for reliable performance
- ▶ Robust integrated spoiler for consistent high speed performance
- ▶ Enclosed hybrid construction for less snow and ice build up
- ▶ Quick and easy installation
