Tow Truck Edition

LED LIGHTS

TRAILER LIGHTS

Replacement LED Low Profile Trailer Tail Light Kit

- ▶ 12 Volts
- ▶ Reflective
- ▶ SMD LED Technology
- ▶ Fits trailers over 80 inch wide

60114

- 8 inch low profile tail light for driver and passenger side
- 1 piece license plate bracket
- 22 feet split Y-style harness
- 4 feet color-coded trunk harness
- Mounting hardware

LED 4 Inch Rear Combination Trailer Light Kit

- ▶ 12 Volts
- ▶ 5 pieces
- ▶ Rust and corrosion resistant
- ▶ Fits trailers less than 80 Inches wide
- ▶ Flat 4-way connector
- ▶ Reflective lens
- ▶ License plate light
- ▶ Water resistant

60106

- 4 inch combination tail light for driver and passenger side
- 2 piece amber side marker
- 1 piece license plate bracket
- 22 feet split Y-style harness
- 4 feet color-coded trunk harness
- Mounting hardware

Back Up Light

- ▶ 12 Volts
- ▶ 10 LEDs
- ▶ 3-wire PL3 pigtail
- ▶ Lens Dimension: 6 inch
- ▶ Sonically sealed to avoid moisture and corrosion
- ▶ Includes rubber grommets for mounting
- ▶ Wire: 9 inch wire lead
- ▶ Fits trailers less than 80 inch wide
- ▶ SMD LED technology

INDUSTRIAL BAGS

INDUSTRIAL BAGS _____ 68

Our industrial lifting bag is constructed of heavy duty canvas. The 2 D rings are supported by commercial grade reflective webbing. The bag can be lifted using a sling or crane hook for heavy lifting. Two rows of Velcro, assure that the bag stays closed during transport or while being stored in high locations.

- ▶ Reflective strap
- ▶ Includes 2 D rings
- ▶ Removable bottom plastic support board
- ▶ B/S: 2,000 pounds
- ▶ WLL: 667 pounds
- ▶ Material: Denier fiber

SAFETY & WARNING

Read all operating instructions and warnings carefully before use.

- ◆ Do not knot tie down assemblies, or allow them to be tied into knots. Never use tie downs for overhead lifting or towing.
- ◆ Inspect any webbing, hardware, cords, and straps before each use. Remove from service if any signs of burning, cuts, alterations, or any possible wear or tear occurs.
- ◆ Webbing strap should not be repaired, under any condition, as it may dampen the strength of the assembly.
- ◆ Do not exceed the safe working load limit. The working load limit (WLL) is the maximum load a tie down should be subject to during normal use. The safe working load capacity should not exceed one-third of the rated capacity. Products subject to wear, misuse, overloading may cause a reduction in the product's working load limit. We recommend that all products be regularly inspected. It is the owner and user's responsibility to determine suitability of a product for any particular use.
- ◆ Do not use transport chains, bungee cords, tarp straps, utility ropes, or tie down assemblies for overhead lifting, human support, towing, or any situations where personal safety can be in danger.
- ◆ Wear eye protection when using any strap assemblies, the hook may rebound and cause serious damage.
- ◆ Do not over stretch bungee cords or tarp straps. Over stretch occurs when being stretched over 50% of its original length, which may cause failure to the cords and serious damage. Store bungee cords and tarp straps in room temperature.
- ◆ Do not overload on load binders, or operate on the binders while anyone is on the load.
- ◆ All ratings shown are based on the product being new and used in normal environmental conditions.

Boxer Tools is not liable to damages caused by alterations, changes, and/or repairs done to our finished goods or parts. All items and parts are for automotive vehicles. Do not use for aircrafts.

Check all applicable industry and trade associations, federal regulations, state regulations, and local regulations.

Boxer Tools publishes this catalog as a convenience for their customers, and has compiled useful information and facts for their end users. This catalog is meant to be a quick reference only.
