AUTO-INFLATION OPTIONS TO FIT YOUR SHOP!

The Branick Model 135, 145, and 155 give you three convenient shop location options combined with the accuracy and ease of the Blockhead Auto-Inflator. Just set the target pressure and attach the lock on chuck. The Blockhead does the rest. The rechargeable 135 Portable will last all day on a full charge and the single hose is perfect for quick top-offs and air-ups around the shop. The 145 Stationary adds efficiency at the tire changer or service bay while the 155 Wall Mount has 4 hoses to quickly handle returning customers requesting an air check. All three come with a one year warranty.
