SMALL SIZE, BIG PERFORMANCE!

Branick Wall Mount systems are the perfect choice for those who won't sacrifice performance but have limited space. From the diminutive 350, ideal for motorcycle and passenger car locations, to the strength of the 650 that can even take on some commercial truck work, the Wall Mount line does it all. The 350 is the entry level model that provides a no frills workhorse system. The 450 and 650 give you more power and also include an auto shut-off, adjustable purity dial and a nitrogen purity port. And the all steel construction houses the industry best PRISM membranes with a 1.9:1 air to nitrogen ratio. Combine one with one of Branick's auto-inflators for hands free operation and you have one of the smallest, most efficient systems on the market. Manufactured at Branick's facility in Fargo, ND means you get American made quality and toughness.
