

BRUSKE PRODUCTS

Catalog 101

INTRODUCTION

Through the years, BRUSKE PRODUCTS has developed and manufactured floor care and speciality cleaning care products and have revolutionized the industry. Bruske has a proven track record for total dependability by providing industrial, commercial and institutional customers with products that literally share no equals. Bruske quality-crafted products are the kind of products that represent the ultimate in manufacturing quality and long life.

The Bruske Brush™ was originally engineered as an answer to the frustration, waste and premature replacement of conventional floor brushes due to sagging bristles and broken handles. The Bruske Brush is the ultimate floor brush...absolutely perfect for the heavyweight needs of metalworking plants and food processors...to the lightweight needs of hospitals and universities. It's INDESTRUCTIBLE!

Bruske Brushes and Bruske Brooms™ are made for indoor and outdoor use. They are sweeping tools you can depend on. Each brush and broom is designed, engineered, and manufactured to give you a floor care product that will last up to ten times longer than any ordinary floor product you may be using.

All Bruske products are constructed with the finest bristle materials... miracle synthetics or natural fibers. There's a bristle material product for your use in the Bruske line that is durable, is not affected by acids, alkalines or most solvents and your Bruske products will keep on sweeping...wet or dry, under the most adverse conditions.

Bruske Brushes and Bruske Brooms are available in an excellent selection of bristles, as well as in a wide variety of sizes to meet just the right requirements of each job. They are available in super fine up to heavy duty coarse bristles that will take care of all floors or surfaces, indoors or outdoors.

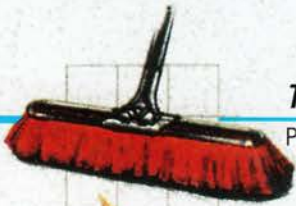

In addition, Bruske's famous all steel or hardwood bolt-on "Miracle Tip™" handle eliminates all handle breakage and thread stripping problems normally associated with ordinary floor brushes. It's "guaranteed not to break"!

Bruske Brushes and Bruske Brooms are INDESTRUCTIBLE! They will sweep better, last longer, and cost less than conventional floor brushes and brooms...I PERSONALLY GUARANTEE IT!

GENERAL ORDERING INFORMATION...We have made every effort to make it easy and convenient for you to order Bruske Products. If for any reason you have not received a current price list on the products in this catalog, please bring it to our immediate attention and we will see that you get one immediately.

THE BRUSKE BRUSH™

THE ULTIMATE SWEEPING TOOL...the Bruske Brush is absolutely perfect for heavyweight and lightweight needs, indoors or outdoors, on any surface. It's a sweeping tool you can depend on. The Bruske Brush is constructed with the finest bristle materials, miracle synthetic or natural fibers, that are extremely durable and are not affected by acids, alkalines, or most solvents. The Bruske Brush keeps on sweeping...wet or dry...under the most adverse conditions. Bruske Brushes last up to ten times longer than ordinary floor brushes.

For 13", 17", and 23" Bruske Brushes, order #6032 hardwood or #6132 all steel "Miracle-Tip" handles separately. For 29" and 35" sizes, we suggest you order the 1 1/8" #6031 hardwood handle.

SUPER FINE YELLOW BRUSKE BRUSH... is made of flagged, super-soft, resilient synthetic bristles for sweeping fine dust on smooth tile, concrete or wood floors. Perfect for use in chemical and food processing plants or any other environment where fine dust particles are a problem.

Brush Size	13"	17"	23"	29"	35"
Brush Model No.	2121-B	2122-B	2124-B	2126*	2128*

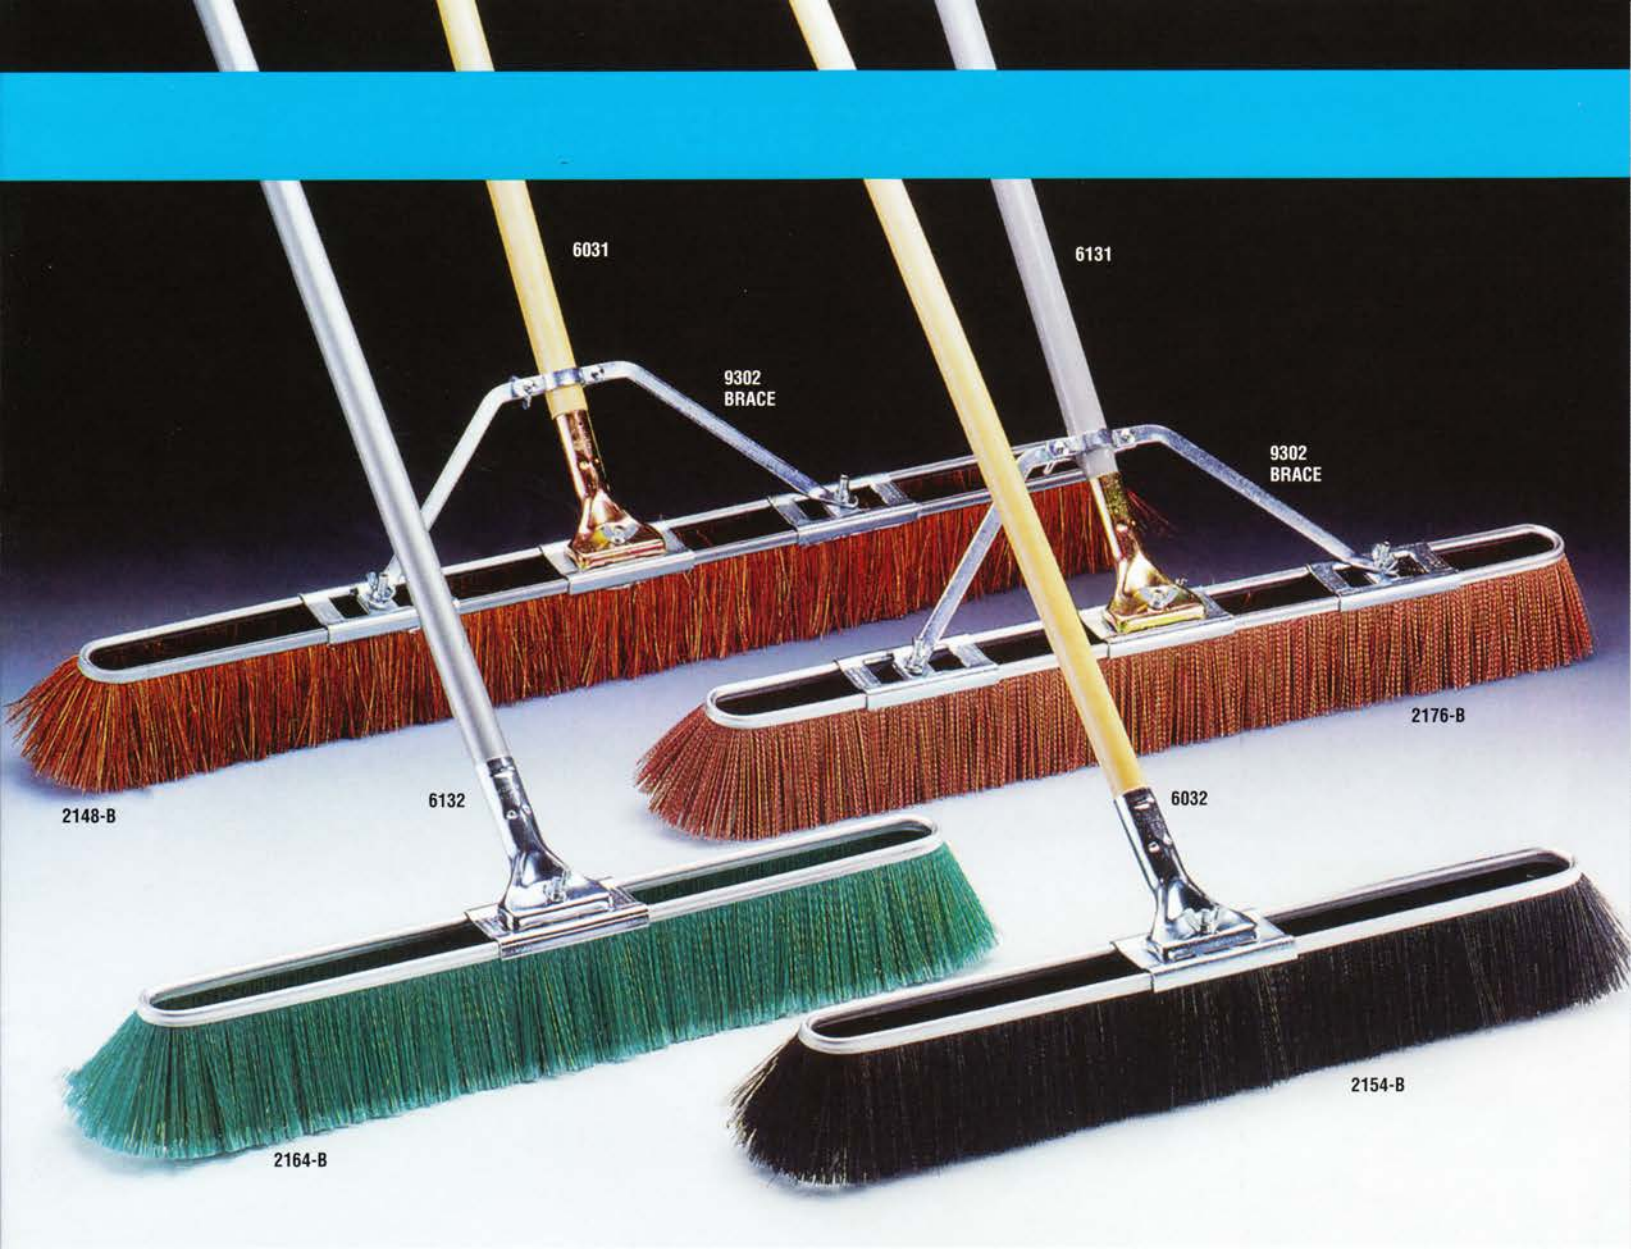

ALL PURPOSE RED BRUSKE BRUSH...is a blend of soft resilient synthetic bristles for sweeping smooth tile, concrete or wood floors. It's the perfect brush for use in sweeping fine dust and light refuse in schools, institutions, commercial buildings, factories, chemical plants and food processing plants.

Brush Size	13"	17"	23"	29"	35"
Brush Model No.	2111-B	2112-B	2114-B	2116*	2118*

FINE BLUE BRUSKE BRUSH...is made of flagged or exploded solvent resistant synthetic bristles for sweeping fine particles even on rough surfaces in any work environment... factories, warehouses, food processing and chemical plants, hospitals, schools and commercial buildings. Not intended for oily or greasy conditions.

Brush Size	13"	17"	23"	29"	35"
Brush Model No.	2131-B	2132-B	2134-B	2136*	2138*

* Indicates #9302 metal brace for 29" and 35" Bruske Brushes are included with brush.

UNIVERSAL GREEN BRUSKE BRUSH... is a unique brush containing flagged synthetic bristles on the outside and unflagged bristles on the inside. It provides dual-purpose sweep... from fine dust to larger refuse.

Brush Size	13"	17"	23"	29"	35"
Brush Model No.	2161-B	2162-B	2164-B	2166*	2168*

COARSE BROWN BRUSKE BRUSH... is stiff, coarse synthetic bristle for use on rough surfaces with adverse dry, wet, oily, or greasy conditions. It's an excellent brush for parking lots, driveways and sidewalks. It can be used to scrub large areas. It is great for sweeping extra heavy refuse. It's a real workhorse!

Brush Size	13"	17"	23"	29"	35"
Brush Model No.	2171-B	2172-B	2174-B	2176*	2178*

MEDIUM NATURAL FIBER BRUSKE BRUSH... is a blend of soft and coarse natural fiber bristles for use in sweeping areas where adverse conditions exist that would normally affect other synthetic bristles. The brush is especially effective in mealworking plants, glass plants, factories or foundries where heat and super solvents exist on the floor surfaces. It's made for heavy dry sweeping on dry or wet surfaces.

Brush Size	13"	17"	23"	29"	35"
Brush Model No.	2141-B	2142-B	2144-B	2146*	2148*

MEDIUM BLACK BRUSKE BRUSH... is an ideal combination of soft and stiff medium black synthetic bristle that is made for heavy duty sweeping on dry or wet surfaces, as well as surfaces with oily conditions. This rugged floor brush is perfect for machine shops, metalworking plants, all industrial plants, in-plant offices, shipping and receiving docks.

Brush Size	13"	17"	23"	29"	35"
Brush Model No.	2151-B	2152-B	2154-B	2156*	2158*

* Indicates #9302 metal brace for 29" and 35" Bruske Brushes is included with brush.

* Handles ordered separately.

THE HEAVY DUTY BRUSKE STREET SWEEP™

Here's the toughest brush to hit the street! The Heavy Duty Bruske Street Sweep makes all other conventional sweeping tools things of the past. This brush is revolutionizing the entire industry. For the very first time you can get a brush that is made to last and is available for comparable cost or even less than traditional brushes.

The Heavy Duty Bruske Street Sweep keeps on sweeping...up to five times longer than any other outdoor brush. Why? Because its stiff, coarse, durable synthetic bristles will not break or thin out as they do in commonly used bass fiber brushes. Bruske Street Sweep's bristle material keeps its fullness, its shape, and never sags or mats.

HARDWOOD HEAVY DUTY ORANGE BRUSKE STREET SWEEP... is made with stiff, coarse, non-sagging durable synthetic bristles for use on rough road and concrete surfaces under any adverse conditions: dry, wet, oily or greasy. This brush is the best of the road and street brushes, or construction brushes.

Order #6031 60" wood or #6131 steel handles separately.

Brush Size	16" Orange Bristle
Brush Model No.	3786

HARDWOOD HEAVY DUTY BROWN BRUSKE STREET SWEEP... is identical to the Hardwood Heavy Duty Orange Bruske Street Sweep except that it is made with blended poly mix bristles.

Order #6031 60" wood or #6131 steel handles separately.

Brush Size	16" Blended Poly Mix Bristle
Brush Model No.	3789

STEEL HEAVY DUTY ORANGE BRUSKE STREET SWEEP... is a stiff, coarse, non-sagging, durable synthetic bristle brush for use on rough road and concrete surfaces under any adverse conditions: wet, dry, oily, or greasy. The best of the road, street and construction brushes. All steel construction prevents breakage. Brushes bent out of shape can be straightened out again.

Order #6031 60" wood or #6131 steel handles separately.

Brush Size	17" Orange Bristle	17" Adaptable to Metal Brace
Brush Model No.	2840	2840-XPFB
Brush Size	23" Orange Bristle	
Brush Model No.	†2860-XPFB	

* Order #9302 metal brace for #2680-XPFB.

† **TOUGH NATURAL FIBER BRUSKE STREET BRUSH...** is made of durable African Bass stalk which makes it an excellent tool for sweeping heavy refuse on all types of surfaces. It is the traditional street brush.

Order #6021 tapered heavy duty hardwood handle separately.

Brush Size	14" Fiber Bristle	16" Fiber Bristle
Brush Model No.	3814	3816

MODEL #3916 ROUND STEEL WIRE BRISTLE with 4" TRIM... is staple set in 16" hardwood block, originally used for sweeping around coke ovens in steel mills. Order #6021 heavy duty handle.

† Not pictured

* Handles ordered separately.

THE ARMOUR-PLATED BRUSKE BRUSH™

The Armour-Plated Bruske Brush is a unique floor sweep developed specifically out of a growing need for floor brushes used in unusual situations. It is adapted for use in applications where a lightweight shovel or scoop might ordinarily be needed. The Armour-Plated Bruske Brushes share the same special blend of synthetic bristles featured in the indestructible Bruske Brush. This provides for smooth sweeping actions and for long bristle life. Added to this unique super-strong brush is the special strength, heavy gauge, all metal frame that makes this brush as durable as a shovel. It's available in two convenient sizes and in a choice of bristles to meet almost every need.

With this special item, we suggest that you order #6031 hardwood handles. Please order handle separately.

ALL PURPOSE RED ARMOUR-PLATED BRUSKE BRUSH... for sweeping lightweight dirt from smooth to moderately rough surfaces.

Brush Size	17"	17"	23"	23"
		Adaptable to Metal Base		Adaptable to Metal Base
Brush Model No.	2112-XP	2112-XPFB*	2114-XP	2114-XPFB**

These Bruske Corn Brooms are the best corn brooms available - anywhere!

Model No. 5424	Lightweight Corn Broom
Model No. 5436	Heavyweight Broom with Rattan Center and Corn Casing.

BRUSKE HANDLES™

9-28-5

INDESTRUCTIBLE IS A GREAT WAY TO DESCRIBE BRUSKE HANDLES! Bruske handles are all made of the finest and most durable materials available. They are specially designed and fabricated to outperform, as well as outlast, all other types of handles. They're tailored to fit the precise needs of the product.

The famous bolt-on "Miracle-Tip" handle is the most innovative and durable product of its kind. This handle eliminates handle breakage, thread-stripping, or brushes falling off conventional handles. The Bruske "Miracle-Tip" handle is made to withstand wear that no other handle can possibly take.

There's a Bruske handle specially recommended for each sweeping or cleaning product. In many instances you have several options of styles or materials from which to choose. Remember to order the proper handle for your choice of product.

No other handle is made better or will outlast a Bruske handle. Bruske handles are indestructible!

BRUSKE SQUEE-GEES™

THE MOST REVOLUTIONARY WIPING BLADE ON THE MARKET... Bruske Squee-Gees, as well as Bruske Floor and Window Squeegees are all designed and specifically manufactured to suit a wide variety of uses within all types of businesses. Bruske's Squee-Gees are quality-made, high performance, completely disposable wiping blades that are available at a low, low price.

The revolutionary design of the Bruske Squee-Gee makes conventional, metal-backed blades obsolete because of the innovative plastic extrusion that eliminates the need for a metal channel or support. Together with the special feature of the Bruske "Miracle-Tip" handle, the Bruske Squee-Gee becomes instantly changeable and completely disposable.

Bruske provides its customers with a complete and thorough line of quality floor care, window care and specialty cleaning care products that meet any or all of their requirements.

Bruske Squee-Gees and Bruske Floor and Window Squeegees outperform, last longer and cost less than other conventional specialty care products.

THE COMPLETELY DISPOSABLE BRUSKE SQUEE-GEE... is a light-weight, high performance, completely disposable, extruded plastic wiping blade that is now available in both straight and curved blades. Both blade styles feature a rigid plastic backing that is bonded to a flexible high-quality plastic wiping blade to eliminate the need for a metal channel or support.

Straight Squee-Gees require squeegee-to-handle adapters. Straight Squee-Gees, squeegee-to-handle adapters and "Miracle Tip" handles should be ordered as separate items.

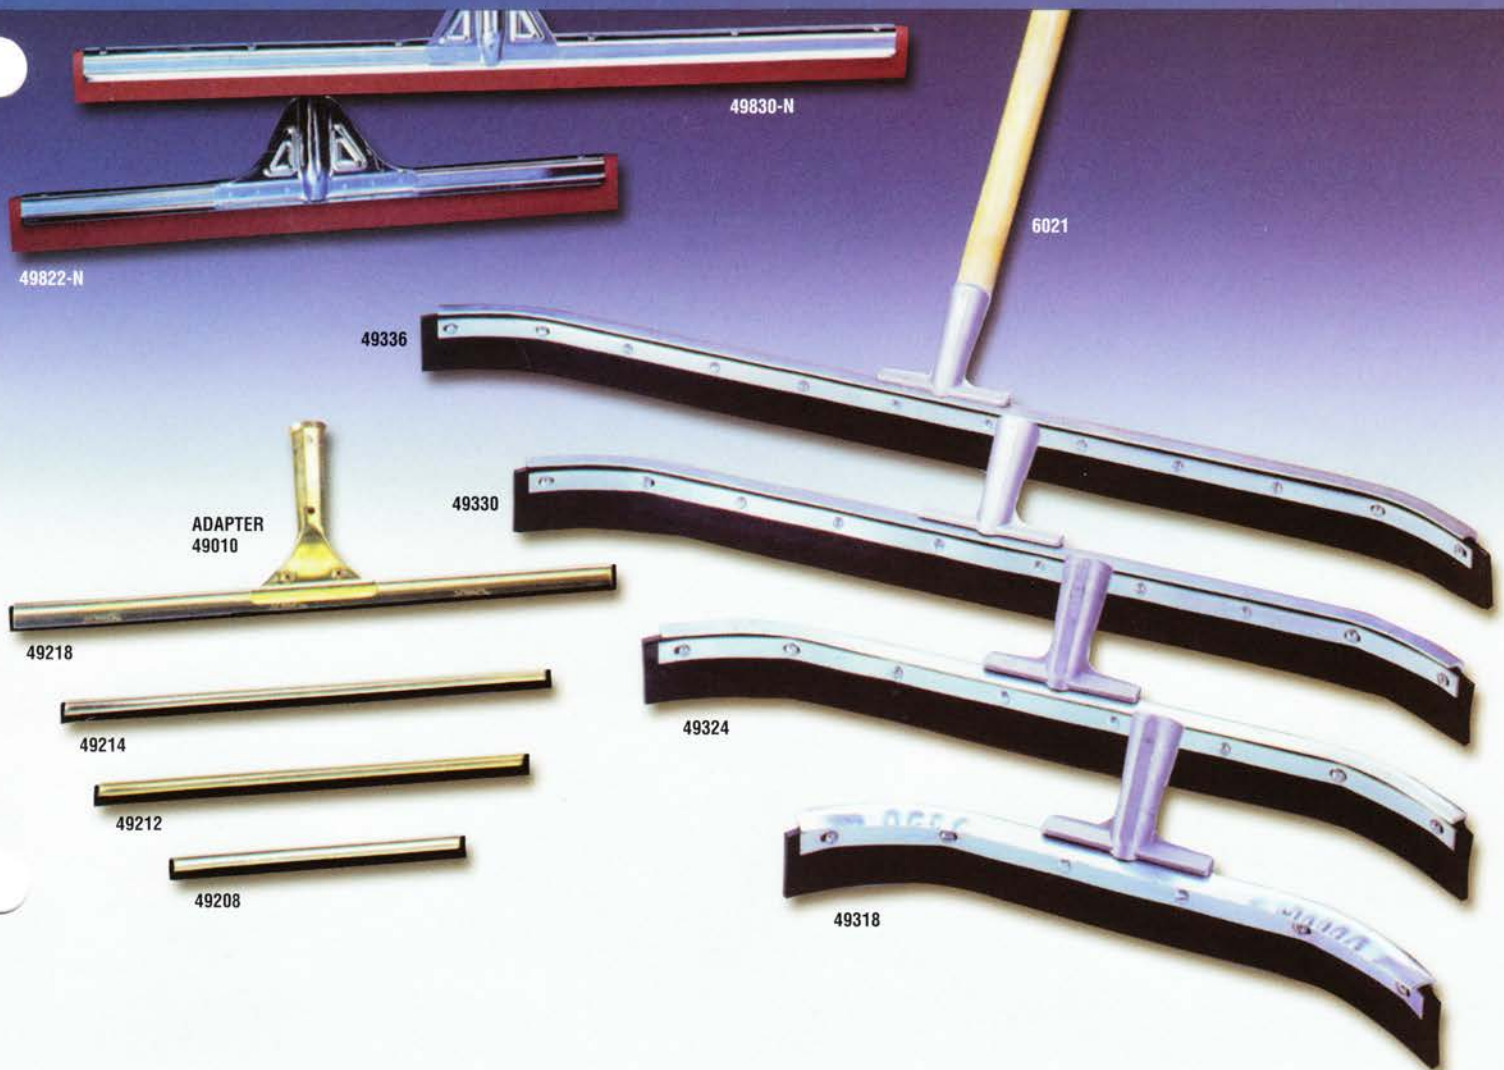

Curved Squee-Gees come complete with squeegee-to-handle adapter built-in. It is not necessary to order adapters. Order "Miracle-Tip" handles separately.

Order #6032 hardwood handle, #6132 all steel handle, or #6332 fiber-glass handle.

Squee-Gee Size	18"	24"	30"	36"

BRUSKE SCRUBS AND WASH BRUSHES

TOTALLY UNAFFECTED BY LONG EXPOSURE TO WATER... Bruske Scrubs and Wash Brushes are multi-use cleaning tools that outlast all other ordinary scrub and washing brushes. They scrub better and will not deteriorate. Simply stated, they are built for rugged use and long life.

THE BRUSKE TRUCK AND WINDOW WASHING BRUSHES... are extremely soft, yet retain their body when wet. The almost indestructible polypropylene block will not mar, scratch, warp or crack. These brushes are totally unaffected by long exposure to water and will outlast any other truck or window washing brush.

Use with #6120 fountain handle, #6083 screw-in handle, #6084 screw-in handle.

Model No. 4105	100% Hog Bristles: 3½" Trim with 10 x 2½" x 1½" Polypropylene Block.

BRUSKE HIGH DENSITY POLYESTER SPONGES ARE THE BEST THAT MONEY CAN BUY! High quality Bruske Sponges last 10 times longer than conventional sponges. They'll hold up to 22 times their weight in water. Unlike cellulose and urethane sponges, Bruske Sponges resist tearing and shredding, never get hard and are not affected by most chemicals, including acids.

- Model No. 9850 Automotive Sponge (wash cars, vans, et al).
- Model No. 9851 Boat and Truck Sponge (and for other large jobs).
- Model No. 9853 Rugged All-purpose Sponge
- Model No. 9854 Hand-size Bath/Kitchen Utility Sponge

BRUSKE RELEASE D'GREASE AND CHEMICALS™

Release D'Grease™ is a completely biodegradable, super-strength, spontaneous cleaner degreaser. It's an effective way to fight the high cost of freight, reduce handling costs, and increase storage capacity. Release D'Grease makes a full 55-gallon drum of super-strength, spontaneous cleaner degreaser from a 4 gallon case consisting of two-2 gallon containers that can be shipped anywhere via UPS or FedEx.

Release D'Grease has ideal physical properties and exceeds most performance requirements. Release D'Grease contains no phosphates and has no Butyl Cellosolve. It possesses no flash point. It has no fragrance. It has infinite solubility, low foam properties and the surfactant system is nonionic patented.

Through simple dilution adjustments, Release D'Grease works well in almost all mechanical cleaning devices. It removes dirt, oil or greasy soil from all types of hard surfaces, floors, ceramic tile, porcelain, plastic, walls, wood, metal, and metallic surfaces. It's safe enough to use on U.S.D.A. inspected food contact surfaces.

BRUSKE CHEMICALS...If you want to scrub your floors, wash your trucks, eliminate an odor problem, clean tire marks off your floors, degrease equipment, wash and sanitize your hands, scrub your freezer, clean a wash room, Bruske Chemicals can supply the product to do the job. For complete information and a current price list call or write Bruske Products.

BRUSKE MACHINE BRUSHES, FILTERS AND BLOT-IT™

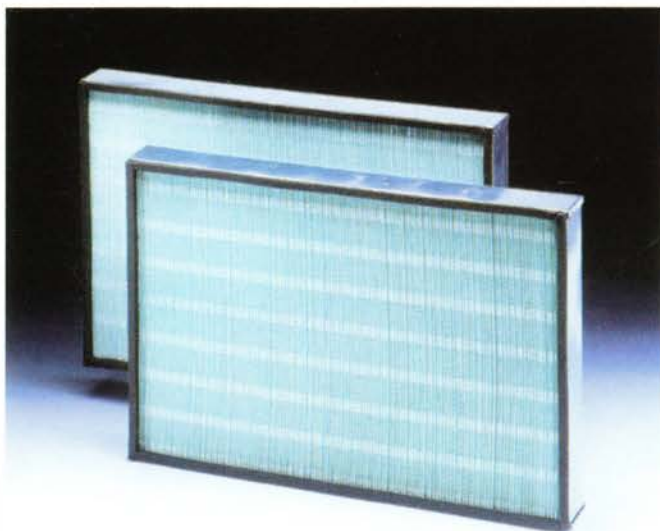

BRUSKE POWER SWEEPER BRUSHES...are replacement brushes you can depend on to fit your needs. These lightweight, rugged brushes will sweep floors of every description cleaner and faster, increase sweeper efficiency, and provide for longer brush life. They fit all of the popular in-plant sweepers and scrubbers including: Tennant, Clark-American, Power Boss, FMC(Wayne), Advance, Gravely, Elgin, and others.

The Bruske Power Sweeper Brush is constructed to assure that every bristle that goes into a new brush will still be present when the brush is completely worn out, just shorter in length. Here are dependable replacement brushes that will sweep better, last longer, and cost less per operating hour than any other type of brush you may be using.

For complete information and current price list, call or write Bruske Products.

BRUSKE THICK LINE PADS...Come in sizes from 7¾" to 27" in Diameter, normal or high speed or ultra high speed buffing, spray buffing, and super polishing. Check your current 201 price list for complete information.

BRUSKE REPLACEMENT MACHINE FILTERS...make it easy to replace original filters for Tennant, Clark American, Power Boss, Advance, Factory Cat and other machines. Bruske flame retardant, bump pleat filter paper has been independently tested to insure correct efficiency, pressure drop and dirt holding capacities. Bruske urethane gaskets do not take a compression set as do other gasket materials, which is important when re-installing a filter after cleaning. Call Bruske Products or your Bruske Rep for more information.

BLOT-IT...is a non-dusting, non-tracking, high powered, super absorbent compound that allows you to clean up any kind of liquid spill in just seconds. Blot-it provides anti-slip, non-skid traction to eliminate slipping and/or falling accidents that are inherent with liquid spills. Blot-it is safe to use; no harsh chemicals, no corrosive agents, no flammable element. It's safe enough for use in U.S.D.A food service plants. It can be used anywhere! With Blot-it there's no need for mopping. Just sweep it up!
