

## Polymer Filler-Strainer Breather Cap Assembly

Buyers Part Number: TFAN3

Buyers Products Polymer Filler-Strainer Breather Cap Assembly keeps contaminants out as you fill your reservoir and allows the tank to "breathe."

- Made of rust-free, high-impact technopolymer for long life.
- Handles temperatures from -22° F to 240° F.
- Keeps contaminants out while you fill the reservoir tank.
- Allows your reservoir to "breathe" and prevents a vacuum from building up.
- Cap warning helps prevent inadvertent damage from using the wrong fluid.
