

## H7 1-1/4 Inch Tubular Shaft Assembly 60 Inch Overall Length

Buyers Part Number: TSA760

Buyers Products H7 1-1/4 In. Tubular Shaft Assembly can be used in a variety of PTO driveline applications due to its customizable shaft length.

- Accommodates many different applications due to the customizable length tubular shaft.
- Can be extended using a midship bearing and stub shaft available from Buyers Products.
- Perfect for medium duty applications with the ability to handle up to 800 inch pounds of torque at 1,000 RPM (12 HP).
- Torque transfer is kept smooth and continuous via the high quality needle-bearing style universal joints.
- Order the whole assembly or just replace the part you need.
