

3" Ball

Product details:

3 Inch Ball

This accessory for the Turnoverball Gooseneck Hitch is 3" and is machined for a tight, rattle-free fit. The "corners only" fit of the square ball base in the round portion of the socket allows dirt to fall through the socket, reducing the chance that the ball might seize up.

- Solid, machined 3" ball
- Square ball base

Part Number: GNXA2025
