

Hi-Rise Ball

Product details:

Hi-Rise Ball

This accessory for the Turnoverball Gooseneck Hitch is 1" taller than a standard ball and is machined for a tight, rattle-free fit. The "corners only" fit of the square ball base in the round portion of the socket allows dirt to fall through the socket, reducing the chance that the ball might seize up.

Solid, machined 2 5/16" ball

- Square ball base
- 1" taller than standard ball
- **Part Number: GNXA2050**
