Companion OEM Slider - Fits GM Puck System

Product details:

B&W Companion™ OEM Slider 5th Wheel Hitch

Part Number: RVK3770

We know what it's like to tow with a short bed truck! That's why we designed our slider hitch to give you twelve inches of slide, so you can have the extra room to maneuver your fifth-wheel.

The Companion OEM Slider, designed to fit the GM OEM hitch platform, installs and removes

easily with its two-piece design. It's notable for its effortless hookup and release with the cam-actuated latching mechanism. 1" thick cast locking jaws are machined with tight tolerances, providing a perfect connection to the camper and a smooth towing experience.

Everything you expect from a B&W.

- No mounting rails means it's removable and you can use your truck for more than towing.
- Fully articulating head allows front to back and side to side pivoting.
- Three vertical adjustments from 17" to 19."
- 2" of front to back adjustment with two coupler positions.
- Cam action latching handle for easy release, even when parked on unlevel sites.
- 1" thick, wrap-around jaws fit kingpin perfectly, eliminating sloppy starts and stops.
- Polyurethane bushings provide a quiet, rattle free towing experience.
- Fits 4 pucks in truck bed. Release handles and it easily converts to a level bed.
- Distance between puck holes: 30" Wide x 13" Deep.
- Product Weight: Base 192 lbs, Coupler 75 lbs.
- Footprint: 36" Wide x 32.375" Deep.
