

Installation Instructions Electric Trailer Brake Control Wiring Adapter

Ram 1500, 2500, 3500

TOOLS REQUIRED:

None

⚠ WARNING

If installing Part Number 3024-P only: To ensure compliance with California regulation you must use additional kit 30235-P. Failure to ensure compliance with California regulations may result in independent liability for the user.

⚠ CAUTION

Plug brake control adapter into mating receptacle on backside of brake control before attaching to the vehicle connector.

1. Locate the vehicle's electric brake control harness connector. The harness will be located underneath the dash and right of the steering column, taped to another harness. There will be a 4-pin connector that mates with the one on the adapter **A**.
2. Plug the brake control adapter into the vehicle's electric brake control harness connector. Follow all brake control manufacturer's installation instructions **B**.

⚠ WARNING

Complete the installation per the electric brake control manufacturer's instructions and mount the unit as directed. Perform test procedures as instructed.

⚠ WARNING

Overloading circuit can cause fires. DO NOT exceed lower of towing manufacturer rating or:

- Max.4 axles: 8 brakes (24 amps)

Read vehicle's owners manual and instruction sheet for additional information.
