

CHAMPION SUPER HEAVY DUTY BRAKE FLUID is a high quality fluid designed for use in both disc and drum type brake systems. It is formulated to function over wide temperature and humidity ranges. Its excellent lubricity protects brake system components and it is safe for the numerous seal materials in vehicle brake systems. The high boiling point reduces the tendency of DOT 3 fluid to vaporize at elevated operating temperatures which can occur during severe braking conditions.

CHAMPION SUPER HEAVY DUTY BRAKE FLUID is recommended for all vehicles where the manufacturer specifies DOT 3 brake fluid. It is compatible with all service fill DOT 3 brake fluids and is suitable as a top-off fluid. It meets the Federal Motor Vehicle Safety Standard (FMVSS) Number 116, SAE J-1703 and Federal Specification W-B-680B. The high boiling point exceeds the requirements of General Motors and Chrysler.

TYPICAL SPECIFICATIONS

Product Code	4057
Kinematic Viscosity:	
cSt @ -40° C	1150
cSt @100° C	1.9
pH	9.5
Dry Boiling Point °F Min	475
Wet Boiling Point °F Min	284
Oxidation Resistance	Excellent
Corrosivity	Nil
DOT 3 Compatibility	Pass
Water Tolerance	Pass
Color	Straw

=====

Available in:

- #4057K - 12/12 oz.**
- #4057H - 12/1 quart**
- #4057F - 6/1 gallon**
- #4057D - 5 gallon**
