

About This Brush

The Carpet Brush with Drill Attachment is a heavy duty drill attachment with very stiff bristles that cleans carpet, upholstery and seats. This brush is meant for intense scrubbing of durable carpets and hard surfaces. The bristles are stiff enough to dislodge old stains. The high speed rotation of the drill combined with the highest quality premium heavy duty brush lifts and easily extracts spots from fabrics, upholstery and carpet. This brush can also be used on tile and grout in bathrooms and showers. Use this heavy duty brush in removing heavy grease, grime, mold and more. Save time and energy with this heavy duty carpet brush.

Powerful Scrubbing Action

Chemical Guys Carpet Brushes with Drill Attachment are designed for powerful scrubbing action with a power drill. Use Chemical Guys brushes on tough stains across carpet, upholstery, and fabric. Use yellow bristles for cleaning deep set-in stains and heavy dirt from rugged carpets and upholstery, or for scrubbing concrete sidewalks or driveways. Red bristles are good for cleaning moderate stains and dirt from normal carpet and upholstery, or for scrubbing tile and grout throughout the home. Gray bristles are soft for gentle cleaning on sensitive fabrics and carpets like wool, mohair, and cotton. Always use the lowest speed setting to achieve satisfactory cleaning results. Test brush and cleaner in an inconspicuous spot for any adverse effects on fabric or dye, and constantly check your work to avoid damaging surfaces. Durable Build Quality

Chemical Guys Carpet Brushes With Drill Attachment are made with durable polypropylene bristles, heavy duty plastic base plate, and rugged steel shank. Power drill chucks grip onto the brush shank tightly for a secure hold while spinning at high speeds. Heavy duty plastic base plate can be used and dropped repeatedly without breaking. Durable polypropylene bristles are attached securely into the baseplate for years of heavy scrubbing without fraying, splitting, or pulling out. Chemical Guys Carpet Brushes With Drill Attachment are the last carpet scrubbing brushes you'll ever have to buy!

How To Use:

- Open the chuck on your power drill wide enough to accommodate the steel shank of the Carpet Brush With Drill Attachment.
- Align the teeth of the chuck to grip snugly around the shank, and tighten down securely.
- Turn your drill to the lowest speed and test the effects of the brush and choice of chemical on an inconspicuous spot of your surface to be cleaned.
- Gradually turn up the power of the drill until satisfactory cleaning results are achieved without harming the surface.
