## Pair With Your Favorite Cleaner

The Chemical Guys Induro 7 Heavy Duty Nifty Carpet & Upholstery Brush works best with your favorite Chemical Guys all-purpose cleaner or heavy-duty stain extractor. For general carpet cleaning, try using Chemical Guys Nonsense. Nonsense is a colorless and odorless all-purpose cleaner that works wonders on upholstery, fabric, and carpet. Dilute Nonsense 20:1 for general interior cleaning jobs, or up to 10:1 for heavy duty stains and grime. If Nonsense can't take down the stains, try switching to Chemical Guys Lightning Fast Stain Extractor. Lightning Fast breaks down set in stains and releases them from deep within carpets and fabric. Lightning Fast is very strong, so dilute it 20:1 before use on carpets or floor mats. Simply mist a few sprays of your favorite cleaner on the carpet or floor mat, let sink in for a few seconds, then scrub and agitate the area with the Induro 7 Brush. Scrub back and forth, then side to side with the brush to loosen dirt, debris, and stains, then draw them to the surface of the cleaner. Wipe up and blot the loosened debris with a microfiber or terrycloth towel. For best results, use the Induro 7 Heavy Duty Nifty Carpet & Upholstery Brush during the pre-treatment stages before using a hot water detail extractor to vacuum out every bit of dirt and debris with hot water.

## How To Use:

Determine the least-aggressive combination of brush and cleaner to get desired results on your carpet.

- Mist a discrete portion of the piece with a 20:1 dilution of Nonsense All Purpose Cleaner to check for desired results, then scrub with the Induro 7 Heavy Duty Nifty Carpet & Upholstery Brush.
- If the 20:1 dilution did not produce satisfactory results, try 10:1.
- If more stain extraction power is required, try using Lightning Fast Stain Extractor undiluted.
- Scrub the residues and debris front to back, then side to side.
- Wipe up residue with a clean microfiber or terrycloth towel.
- For best results, use a hot water detail extractor to fully remove embedded debris.
- Treat the area with Fabric Guard for extended protection against spills and stains.
