

## How It Works

Remember your scoop of delicious vanilla ice cream? Did you have it hand-scooped at the corner drug store, or placed in a bowl in your own kitchen? There's nothing like that first lick of the cold creamy treat, or the first brain freeze that came and went soon after! Chemical Guys Vanilla Bean Fresh Scoop Scent is the air freshener for any fan of ice cream, milkshakes, and soft serve cold treats. The distinct vanilla scent is extremely complex, difficult to refine, and can only come from vanilla orchids cultivated by hand. It is a true labor of love to hand-prune and pollinate every individual flower on the vine, but the sweet vanilla aroma make it all worth it. Chemical Guys master blenders took vanilla extracts and mixed them with their patented odor eliminator enzymes. The end result is a flowery fragrant vanilla air freshener scent that eliminates odors at their source. Mist a few sprays of Vanilla Bean Fresh Scoop in your musty car, stale living room, or stinky locker room to purge foul odors with the fresh scent of hand-scooped ice cream. Every foodie, kid at heart, and fan of delicious ice cream is sure to love Chemical Guys Vanilla Bean Fresh Scoop Scent anywhere, any time.
