

About This Car Wash Sponge

The Chemical Guys Ultimate Chenille Microfiber Two Sided Wash Sponge is the scratch-free car wash tool for any type of mess. Microfiber is the best car washing material because it is extra soft, extra absorbent, and helps protect against swirls and scratches. Weekend warriors routinely drop their car wash mitts and sponges on the ground, picking up abrasive dirt and grit that scratches when rubbed on paint. Slip the Two Sided Wash Sponge elastic strap over the hand for a secure grip over any surface. The plush microfiber noodles of the Two Sided Wash Sponge absorb clean wash water and fresh car wash soap, and put it down on filthy paint where they're needed most. Flip the elastic strap over the sponge and scrub stuck-on bugs, bird droppings, and tree sap with the soft microfiber scrubbing mesh. Gently loosen and remove abrasive dirt, grit, and grime without scratching or swirling paint, glass, metal, or optical plastic on any vehicle. Use the two-bucket method whenever cleaning any vehicle to drastically reduce the chances of scratching with every wipe of the sponge. The giant microfiber noodles lift and trap dirt away from sensitive surfaces to protect them from scratches. The bright blue microfiber highlights dirt and debris, so any detailer knows when to rinse it clean for a scratch-free shine. The quality car wash sponge is made with 70/30 blended microfiber for an extra-soft feel that lasts through dozens of wash and dry cycles. Wash any vehicle, any time, and anywhere without fear of dropping the wash tool with the Chemical Guys Ultimate Chenille Microfiber Two Sided Wash Sponge.

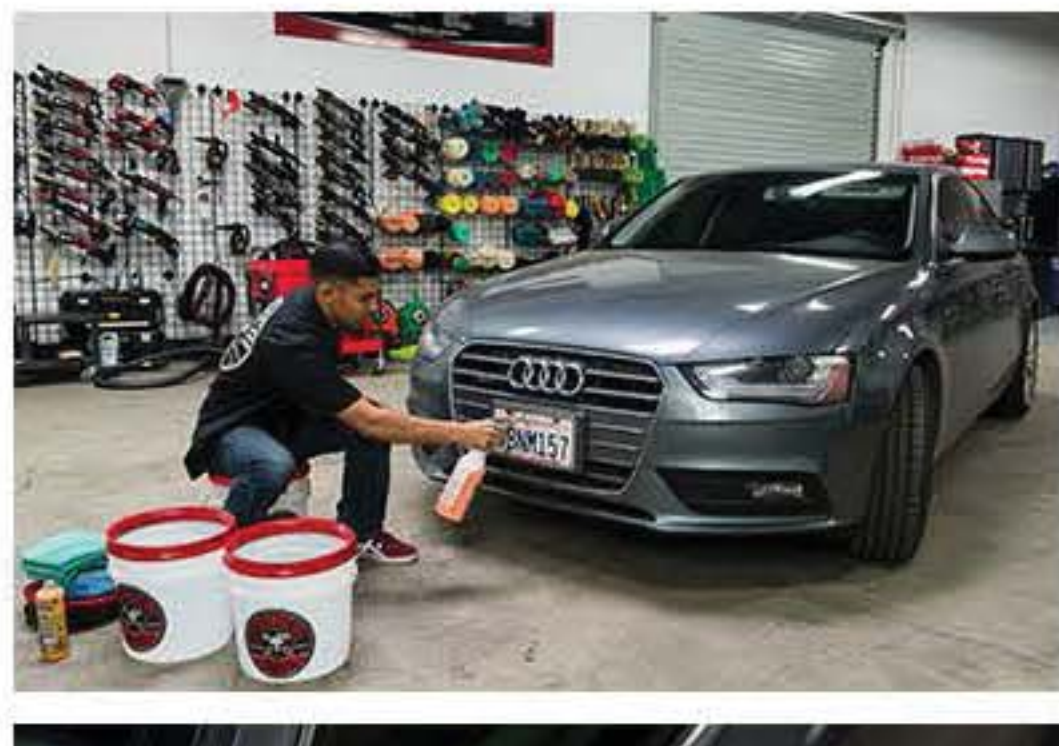

Slip-On Cleaning Power

The Chemical Guys Ultimate Chenille Microfiber Two Sided Wash Sponge features a revolutionary elastic strap that grips the wash sponge to the detailer's hand securely. Traditional car wash sponges are large, clumsy, and unwieldy rectangles that are easy to drop. Dropping the car wash tool on the ground is a detailing sin: wash mitts and sponges pick up tons of abrasive dirt and grit that scratch and swirl paint with every following wipe. Slip on the Two Sided Wash Sponge with drop-free design for effortless cleaning on any surface without the risk of dropping the car wash sponge. Reach out to clean any far-away surface with the plush microfiber chenille noodles without dropping the sponge on the driveway. Flip the elastic strap over the sponge for the same secure grip whenever using the bug-scrubber side. Simply dunk your hand in the car soap bucket, wipe down a panel, then dunk your hand in the rinse bucket for scratch-free detailing thanks to the Ultimate Chenille Microfiber Two Sided Wash Sponge and the two-bucket car wash method.

Microfiber: The Greatest Scratch-Free Car Wash Tool

Unlike cheap polyurethane or plastic car wash sponges, the Microfiber Two Sided Wash Sponge traps dirt, grime, and debris for scratch-free cleaning. The immense surface area of every microfiber strand traps abrasive dirt and grime inside the fibers of the very material itself. Weave microfiber into plump chenille noodles, the resultant sponge gently lifts and traps every abrasive dirt particle deep inside and around every strand of the wash tool. Microfiber is a blend of polyester and polyamide. This revolutionary man-made material is ultra-soft and absorbent, and holds tons of fresh car wash water and car soap for extra lubrication of filthy dirt and grime with every wipe. Every Chemical Guys microfiber towel, wash mitt, and wash sponge is made with premium 70/30 blend of microfiber for an extra-soft feel that lasts through dozens of wash and dry cycles. Ditch the cheap parts store car wash sponge, and upgrade to the Ultimate Chenille Microfiber Two Sided Wash Sponge for scratch-free detailing.

Color Coded For Scratch-Less Detailing

Dirt, filth, and grime blocks shine and reflection, and makes cars look terrible. This contamination is dark and filthy, and contrasts with bright vibrant colors found on any car, and the Chemical Guys Ultimate Chenille Microfiber Two Sided Wash Sponging. Cleaning any car with the bright blue Two Sided Wash Sponge highlights any dirt, filth, or debris from every wipe. Instead of scrubbing with the same filth and scratching the car, the detailer gets a chance to see the contamination, and removes it from the sponge using the two bucket car wash method. Keeping the sponge clean keeps the car clean, and cleaning with less dirt means less chances of installing swirls and scratches on any car. Protect your car as you wash with the Chemical Guys Ultimate Chenille Microfiber Two Sided Wash Sponge.

Pair this wash sponge with any of our [premium car wash soaps](#) to make your car look like new again!

How To Use:

Washing The Car

- Use two buckets whenever washing your car: fill one bucket with 5 gallons of water and 1 - 3 oz. of your favorite Chemical Guys car wash soap, and the other bucket with plain water.
- Rinse your car, then wash in straight lines with the soapy wash sponge.
- After cleaning a panel or two, dip the sponge in the bucket of plain water to loosen the embedded dirt and grime, then wring it out on the ground to purge the dirt from within.
- Return to the soap bucket and continue to wash the whole car.
- Rinse away all soap and dirt from the car, then dry with quality microfiber towels.

Care Instructions

- Machine wash microfiber goods with Chemical Guys Microfiber Wash and HOT water.
- Machine dry microfiber goods on LOW heat.
- Do not use fabric softener or dryer sheets: fabric softeners clog microfiber, rendering it unabsorbent and useless.
