

BIG MOUTH - The Fluffy Orange Drying Towel

The BIG MOUTH Premium Car Drying Microfiber Drying Towel is fluffy, soft, and absorbent. This towel is big and shaggy! Normal microfiber towels are 16" square; the Premium Car Drying Towel is an enormous 36" x 25". The towel is blended with premium 70/30 microfiber for a soft, absorbent touch that absorbs water and picks up any missed dirt for scratch-free wiping. Cheap microfiber towels have hard nylon edges that scratch paint when buffing and drying. The Premium Car Drying Microfiber Drying Towel features premium silk-banding along all four edges for the softest scratch-free touch from the entire towel. Use the Premium Car Drying Towel to soak up water on its own, or pair it up with a drying aid or quick detail spray for enhanced water absorption. Dry any car in one pass with the Chemical Guys Premium Car Drying Microfiber Drying Towel.

SOAK UP WATER With A Big Mouth Towel

Use the Big Mouth Towel to soak up wash water and quickly dry any large car, truck, motorcycle, or SUV. Every towel features one short nap side, and one high nap side for extra versatility. Use both sides to wipe up and absorb any standing water, and flip to the high pile side to safely catch any dust or debris without scratching paintwork. The bright Orange microfiber highlights dirt and debris, showing when to flip to a clean side for scratch-free drying. The ultra-soft microfiber and exclusive silk-banded edges help prevent any swirls or scratches on sensitive paintwork and automotive surfaces. Microfiber is the industry-standard cloth for touching and wiping cars because it is super-soft, super-absorbent, and will not scratch paint when used properly. Miracle Dryer Towels are made with premium 70/30 blended microfiber for ultimate softness and durability, and a luxurious silk-banded edge to further reduce the chances of scratching sensitive paintwork. To dry off an entire car after the weekly wash in one pass, pick up the Chemical Guys BIG MOUTH Dryer Towel.

Fluffy Orange Drying Towel

Microfiber is a miraculous blend of Polyester and Polyamide, and the ratio of the two determines the softness of the fabric. Low grade microfiber towels are made with 80/20 microfiber, and can scratch paint. Premium Car Drying Microfiber Drying Towels are made with a select 70/30 blend of fluffy microfiber for an extra soft feel that drastically reduces the risk of scratching sensitive automotive surfaces. Premium Car Drying Microfiber Drying Towels also feature silk-banded edges for an extra-soft feel all the way to the edge. Professional detailers, meticulous collectors, and serious enthusiasts all choose Premium Car Drying Microfiber Drying Towels for all their large-scale drying tasks. Dry off all the standing water and large puddles off a car after a wash or full detail with the Chemical Guys Premium Car Drying Microfiber Drying Towel.

Luxurious Silk Edging

The BIG MOUTH Premium Car Drying Microfiber Drying Towel uses ultra-soft microfiber and exclusive silk-banded edges to help prevent any swirls or scratches on sensitive paintwork and automotive surfaces. Every Chemical Guys Premium Car Drying Microfiber Drying Towel features an ultra-soft silk edge. While most microfiber towels have hard nylon edges that can scratch paint, Chemical Guys BIG MOUTH Premium Car Drying Towels use soft silk edges to protect paint from damage with 100% of the towel's surface. Detailers and weekend warriors routinely spend countless hours of meticulous work to achieve the perfect finish, only to have it ruined by the final wipe of their cheap bulk-bought towel. Don't get fooled again: see why detailing professionals, hardcore enthusiasts, and show car gurus choose Chemical Guys Premium Car Drying Microfiber Drying Towels for the end of every detail and routine car wash.

Keep Your Towels Clean And Soft

Clean and soft microfiber is crucial to preventing scratches on paint. Use Chemical Guys [Microfiber Wash](#) to keep your microfiber towels clean, soft, and absorbent! To wash and dry microfiber goods:

- Separate microfiber towels by type into designated wash & dry loads.
 - Keep grimy towels separate from cleaner paint towels!
 - Start by washing "cleaner" towels first, then finish with "grimier" towels.
- Machine wash microfiber goods with Chemical Guys Microfiber Wash and HOT water.
 - Hot water opens the fibers to better release dirt and grease.
 - Do not use fabric softener: fabric softeners clog microfiber and render them unabsorbent and useless.
- Machine dry microfiber goods on LOW heat.
 - High heat cooks fibers, makes them hard, and then they can scratch paint.
 - Do not use fabric softener dryer sheets: fabric softeners clog microfiber and render them unabsorbent and useless.
