### New Odor Eliminator

Stains are unsightly and last for years, and they stink. Literally! Staining agents like food can rot, rancidify, curdle, or ferment, putting out foul odors and putrid stench. Proper cleaning physically removes the odor-causing molecules from fabrics and upholstery, taking the smell away with them. For those left behind, Lightning Fast is blended with odor-eliminating enzymes that physically destroy and kill odor-causing bacteria and germs. These enzymes destroy odors at their source, leaving behind a fresh, naturally clean scent.
