

How It Works

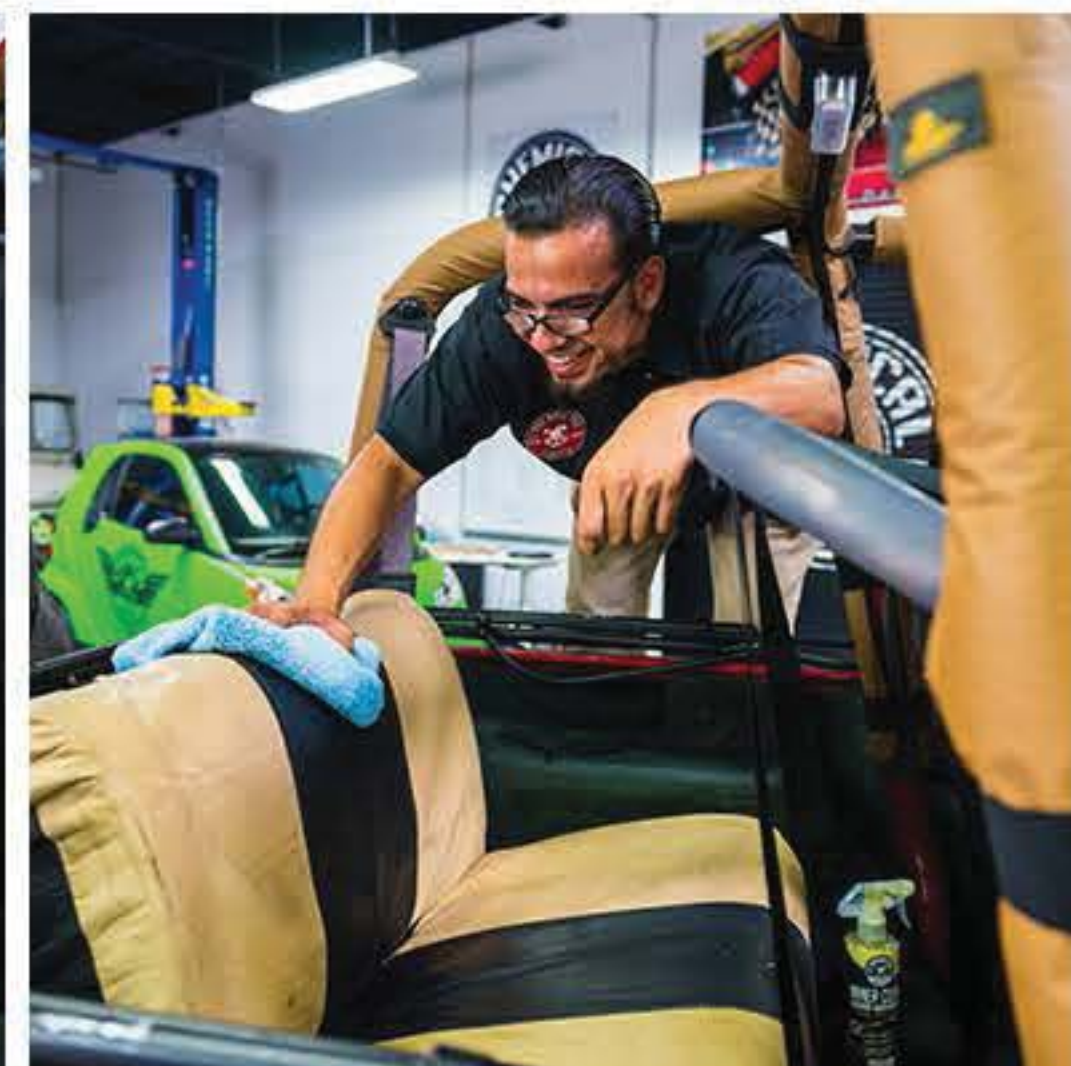

Chemical Guys InnerClean is the ultimate quick detailer for your vehicle's interior. The unique formula of InnerClean cleans and protects interior surfaces quickly and easily. InnerClean quickly wipes away dirt, dust, and body oils from interior surfaces, restores a crisp OEM sheen, and protects against harmful UV solar rays. The unique conditioners inside InnerClean bring life back to dry and neglected interior surfaces and restores a factory-fresh appearance. Clean dashboards, door panels, steering wheels, shift knobs, vinyl and leather seats, glass, LCD navigation screens, and more with InnerClean. New anti-static agents and zero-residue formula help repel light dust and dirt to maintain a crisp, clean feel across cleaned surfaces. Use InnerClean to block out harmful UV solar rays and protect dashboards, door panels, and other plastic and vinyl pieces from cracking and fading. The crisp pineapple scent of InnerClean freshens any interior, while enzymatic odor eliminators destroy odors at their source. Don't let Mother Nature degrade your investment, clean and protect interior automotive surfaces with InnerClean.

InnerClean contains a anti-static properties to help prevent dust build up. Similar to wiping down the exterior of your car with your favorite Chemical Guys Quick Detailer, InnerClean has the same effect but for your interior. Leaving behind new fresh odor neutralizers, you can quickly wipe down interiors while eliminating unwanted smells and replacing it with a subtle hint of pineapple. Often cleaners leave behind a residue, with the quick detailing power of InnerClean, there is zero residue left behind. Quickly detail and protect your interior surfaces with InnerClean Interior Quick Detailer

Perfect For Quick Detailing

The unique InnerClean formula easily removes dust, dirt, and body oils from any interior surface while restoring the original OEM appearance. Dust and dirt can make a vehicle's interior appear old and neglected. InnerClean restores the crisp, clean, factory-fresh look of automotive interiors. Blended with dust-repelling technology and zero-residue formula, InnerClean repels dirt and dust, keeping your interior cleaner for longer. Simply spray InnerClean on a microfiber towel and wipe away dirt, dust, fingerprints, and body oil in seconds. The gentle conditioners blended into InnerClean nourish plastic and vinyl to restore a rich OEM appearance. Using InnerClean makes interior detailing fast, easy, and effective.

Original Factory Appearance

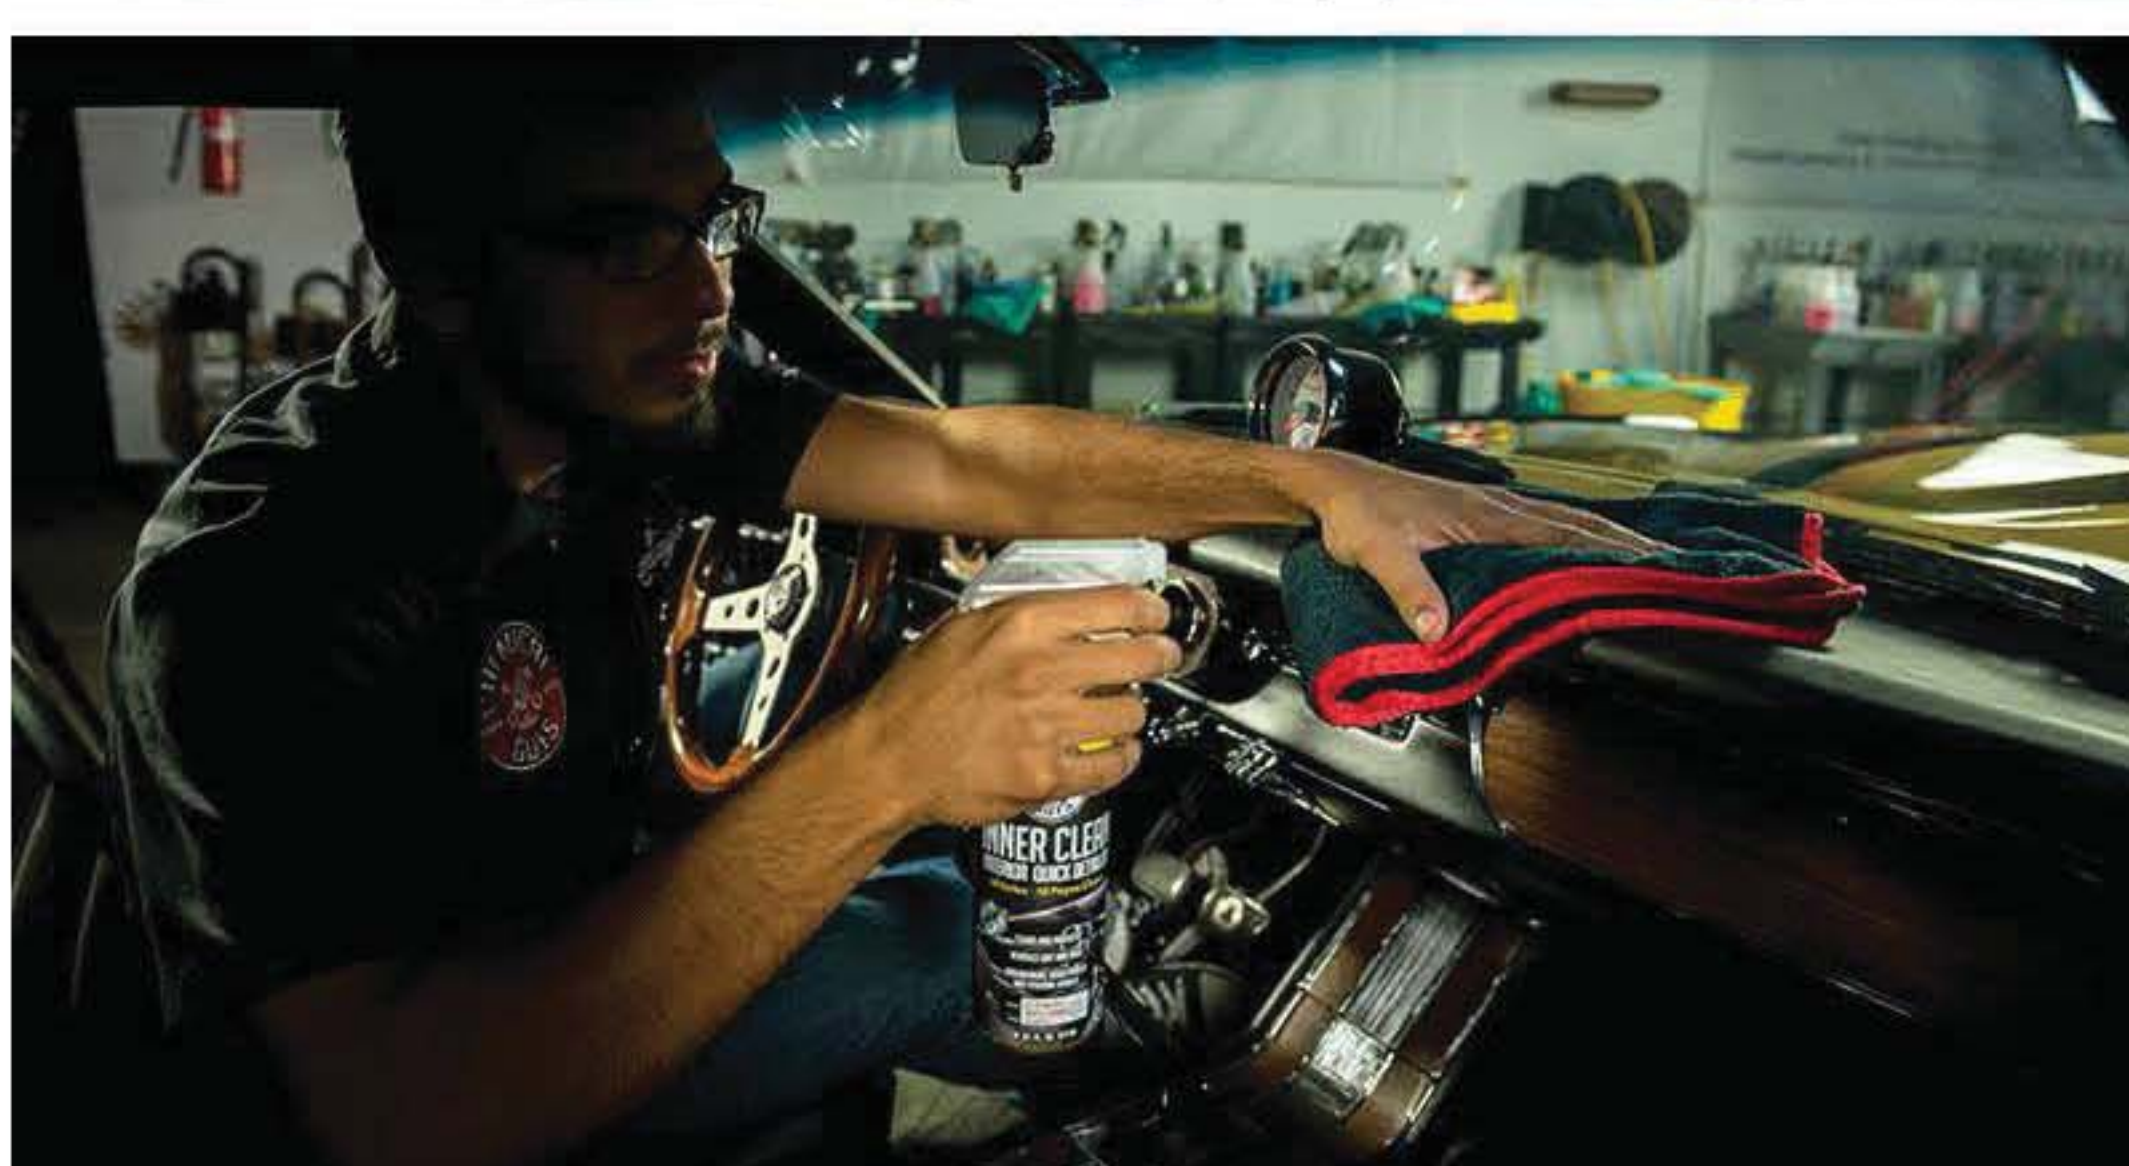

Chemical Guys designed InnerClean to leave your vehicle's interior with a clean and crisp OEM appearance. Low grade interior dressings add a greasy shine that attracts dust and dirt, reflects sunlight into the driver's eyes, and discolors interior panels. InnerClean cleans interior surfaces, leaves a matte OEM factory appearance, and protects against harmful UV solar rays. Use InnerClean for a crisp, clean look on dashboards, door panels, steering wheels, shift knobs, navigation screens, leather and vinyl seats, armrests, wood trim, door handles, cup holders, and more!

Advanced Protection Against UV Damage

Without proper protection against harsh UV sunlight, plastic and vinyl parts can crack and fade. Cleaning and treating interior surfaces with InnerClean infuses them with premium sunblockers and UV rejectors to protect them from degrading in sunlight. Wipe down interior surfaces with InnerClean after every car wash for a fresh look and protection against UV light damage.

Versatile Formula

Automotive interiors are one of the hardest areas to detail because of the wide variety of materials and textures. From leather, plastic, vinyl, cloth, chrome, glass, carpet, metal, upholstery, rubber, and on, interiors contain more diverse materials than any other part of a car. InnerClean is the first product formulated to work across all of them. Simply mist InnerClean on a premium microfiber towel, then wipe away dirt, dust, grease, and oil from dashboards, door panels, armrests, steering wheels, navigation screens, cupholders, seats, gauge clusters, and more. InnerClean is the one-step product for interior cleaning and protecting.

Anti-Static Technology

Chemical Guys blended InnerClean with an advanced anti-static formula to repel dust and dirt from treated surfaces. InnerClean cleans interior contamination, then repels dust and dirt, causing it to simply slide off the surface. Surfaces treated with InnerClean stay cleaner for longer and are easier to wipe clean over time. Drive around with the top down with no worries of airborne dust, dirt, or grime.

Other Sizes Available

InnerClean Interior Quick Detailer & Protectant is available in [4 ounce](#), [16 ounce](#), and [1 gallon](#) sizes.

How To Use:

1. Apply a few light sprays of InnerClean to a clean microfiber towel.
2. Gently wipe the interior surface to remove dirt, dust and body oils.
3. Once the surface is cleaned, flip over the microfiber towel to a clean side and buff off any excess product revealing a crisp OEM finish.
4. InnerClean can be applied to any interior surface, including painted material.
5. Apply InnerClean to every interior surface to ensure proper protection.
