

The release of the 2005 Ford Mustang sparked a huge increase in aftermarket restyling components to make these gems one of a kinds....Classic Design Concepts has been producing innovative and superior quality products from the get go. One of the most popular items of all is the Classic GT Chin Spoiler for your 2005-09 Mustang GT. Aggressive styling coupled with a very simple installation process makes this one of the most affordable (must-have) components on the market.

We have taken this very successful design and created an addition that increases the aggressive look even further and gives you that stylish edge everyone craves! Using 15 mounting points, you need only drill a few holes, secure the fasteners (push pins) and enjoy. Installation will take roughly 10 minutes.

This product must be installed in addition to the Classic GT Chin Spoiler. It is not designed for use with any other vehicle or any other chin spoiler.

CDC Chin Spoiler Sold Separately

When it comes to quality body kits & ground effects, Classic Design Concepts is the brand you can depend on.
