

## AVAILABLE NOW!!!

We have taken great care in providing the highest quality **LightBar** offered in today's competitive market.

CDC's LightBar is available for 90-93 Mustangs. Standard in black with LED light, also, available in other factory colors and without LED Light.

Product Material-1 1/4" Round Steel Tube with a 1/8" Wall Thickness. Poly Urethane foam molded over tube and wrapped with vinyl. Application bolts in with an estimated installation time of 3 Hours, manufactured by CDC.

**NOTE:** If you are unsure of color matches, please give us a call and we can send you color swatches to match up to your interior.

**Note:** \*\*\* 87-89 models will need to replace the rear interior trim panels with 90-93 trim panels (not included) to accept the LightBar brackets' width. It is recommended to acquire these panels first as they are difficult to find.\*\*\*

**\*\*\*Not Intended for Rollover Protection\*\*\***

When it comes to quality body kits & ground effects, Classic Design Concepts is the brand you can depend on.
