

The Mustang Deck Lid Trim Panel is a simple and quick modification that makes a big difference. The rectangular space between the taillights of the '10-'14 models lies indented just about an inch. This trim panel fills that gap completely so the deck lid and taillights all work together nicely for a much cleaner look. Regardless of your Mustang's color, the addition of the Deck Lid Trim Panel is sure to get your vehicle much more attention.

- Classic Design Concepts ALL NEW Decklid Trim Panel is designed and engineered to the same OE quality standards as is predecessor.

- Made of OE Quality Grained RIM Material and fastened with 3M acrylic bonding tape.

- Clean, classic and easy to install, you'll find this Decklid Trim Panel among the most cost effective and impressive modifications you'll ever make!

- Trim Panels are painted in matte black

When it comes to quality body kits & ground effects, Classic Design Concepts is the brand you can depend on.
