

With the constant expansion of the Mustang's extensive aftermarket base, a rear trim panel has become an extremely popular modification because of the sporty appearance they provide. Give your '99-'04 Mustang more performance style with the Honeycomb Trim Panel. This component is sure to spice up your vehicle's rear end and catch a lot of attention!

- Part consists of 3 pieces, includes the left, right and center honeycomb textured panels, all made from Ford OEM tooling to provide a superior fit and finish.

- The CDC *Honeycomb Trim Panel* requires the removal and reuse of your factory Ford Oval and "GT" emblems.

- All trim panels come standard with the appropriate cut outs, no modifications are necessary.

- The injected molded parts are applied between the taillights in approximately 30 minutes using 3M 2-way Acrylic Bonding Tape.

- **NO DRILLING REQUIRED!!**

When it comes to quality body kits & ground effects, Classic Design Concepts is the brand you can depend on.
