

NEW OPTION AVAILABLE NOW!!!!

LightBar w/Interior Dome Light- You no longer have to struggle to see what's in your back seat. Whether your top is up or down, this fully integrated dome light system will give you all the illumination you need with **THREE** bright white LED's!! Cutting edge design and pure functionality, the recessed dome light is bright, stylish and long overdue! We are taking orders **TODAY!!** (Choose iLight Option from drop down menu)

The Mustang convertible has been a very popular vehicle for many decades. In most cases, however, the front of the Mustang tends to make more of an impression than the side profile because a convertible lacks definition when the top is down. Enhance the flat side profile of your Mustang convertible with the **Classic Light Bar** and give your car a sportier look that is sure to catch a whole lot of attention! Add the interior Dome Light option to your LightBar order today for only \$50!

The CDC *Classic LightBar* fits 2005-2014 Mustang Convertibles.

- The factory top effortlessly fits over our *Classic LightBar* and does not interfere with any factory functions.
- High mounted LED 3rd brake light provides increased visibility and turns off while top is up.
- Our *Classic LightBar* attaches to B-pillars creating a sturdy mount, designed to stiffen your convertibles chassis.
- LightBar is constructed of a sturdy 1 ¼" round steel tube, with a 1/8" wall thickness.
- Polyurethane is then molded around the tube and hand-wrapped in vinyl, grained to match your car's interior trim.
- Our *Classic LightBar* bar comes with all hardware and mounting brackets needed for easy installation.

NOTE: If you are unsure of color matches, please give us a call and we can send you color swatches to match up to your interior.

* Don't be fooled by imitations, give your vehicle the quality it deserves, ask for Classic Design Concepts products by name! *

When it comes to quality body kits & ground effects, Classic Design Concepts is the brand you can depend on.
