

Designed exclusively by CDC, the all new 2015-17 Mustang Front Chin Spoiler is engineered to look like an OE stock component with aftermarket flare. Fits all 2015-17 models excluding Shelby and Roush.

- To ensure OEM quality, fit and finish, CDC uses the same injection molded TPO material Ford uses for the front and rear fascias.
- The chin is molded in Black with a grained texture and is designed to be installed right out of the box.
- The chin installs easily using all factory mounting locations with supplied hardware and 3M Acrylic Bonding Tape. - No drilling necessary.

Optional Hardware Kit available for 2015-17 Mustangs with the Performance Pack Chin Spoiler. Refer to drop down menu option when ordering.
