

The all new Classic Sequential Mirrors are now available for your 2015-17 Mustang! Add the perfect match to your factory sequential taillights and gain the added safety awareness of letting those in your blind spot know you are changing lanes.

Installation is a breeze with the provided pigtail harness. Simply plug into the harness that is already in the mirror housing from the factory. No need to run any additional wires.

All mirrors contain the heated glass option available from the factory

*Optional "Objects in the mirror are losing" print available for passenger side mirror. Choose option from option list above.

*****Vehicle must be equipped with exterior mirror housing turn signal to be compatible** - if your Mustang does not have the amber turn signal in the mirror housing from the factory, the wiring necessary to plug the sequential mirrors into will not be existent inside the housing.
