

Winter Blade

Extreme Winter Weather Performance

Compare Value to Anco and Trico Winter Blades

KEY FEATURES

- + Designed with heavy duty galvanized steel structure and large profile molded squeegee, this product lifts heavy and slushy snow and ice better than competitive products.
- + Synthetic boot (vs. natural rubber in competitive products) has stronger tear and ozone resistance than most winter blades in the market.
- + Universal pre-installed adapter.
- + Available in size 16/18/20/22/24/26

SIZE	16"	18"	20"	22"	24"	26"
