

## PRODUCT DISCLAIMER: ADD TO ALL PARTS

### WARRANTY AND DISCLAIMER

Items sold by CMST USA may not be legal for street use in all states. It is the Buyer's responsibility to comply with applicable state laws. Buyer understand that due to strict U.S. Federal and State safety crash guidelines, CMST USA is not responsible or liable for any damages or possible injuries incurred upon possible accidents due to driver error, incorrect installations, bad judgement, or act of nature/God, Allah, Jehovah, etc. All products are intended for off-highway use only, and should be used for their intended purposes only. CMST USA does not take responsibility over Buyer installation, modification, and unusual stress of the products. The Buyer assumes all responsibility for determining the suitability of the products. CMST USA is not responsible for any damages incurred either directly or indirectly on the vehicles or operators/passengers within the vehicles. Purchases made through non-official channels do not qualify for warranties.

### INSTALLATION

All products require professional installation. Buyer understands that some products may require modifications for correct fitment. Minor adjustments may be necessary as part of the normal installation process. All carbon fiber products will not sustain heavy force or weight, for they could be cracked by such force or weight. CMST USA mas made an effort to produce all of its aftermarket products to fit the original factory vehicles as closely as possible. However, some occasional prepping may be necessary for an ideal fit.

The buyer needs to perform these steps to his/her satisfaction before installation. If the buyer wishes to paint the products he or she must pre-fit the parts to the vehicle before painting to ensure proper fit. There are absolutely no returns on painted or mounted products.

### HOOD PINS

All hoods require hood pins for safety reasons. CMST USA will not be liable for any damages to the product and the vehicle caused by not properly using hood pins.

### HEAT SHIELDS

CMST USA strongly recommends the use of heat shields for all carbon fiber and fiberglass hoods. Heat shields help avoid premature aging of the product.

### DEFECTIVE PRODUCTS

All products require professional installation. Minor adjustments may be necessary. These are normal bodywork and installation steps. Therefore, it is not considered to be defective. In addition, most carbon fiber products are handcrafted, and no two items will be identical. Small imperfections such as wavy weaves, small bubbles, and clear finish blemishes are inevitable. Pictures are required to demonstrate true defects on products prior to return.
