

DOOR LIMIT STRAP KIT

PART#C4931

PARTS LIST

- | | |
|-----------------|----------------|
| (2) DOOR STRAPS | (2) BRACKETS |
| (4) CAP SCREWS | (4) NYLOC NUTS |

INSTALLATION INSTRUCTIONS

1. First determine the mounting location of the Strap
NOTE: The Strap will be mounted towards the front of the door on the inner door panel.(facing the driver).
2. The mounting bracket for the strap is actually an integral part of the strap itself.
3. Drill (2) holes in the inner door panel using the Strap Bracket for a template.
4. After ensuring that the door will open sufficiently tack weld the supplied weld-on Bracket to the door X-brace.
5. Clip the strap in the bracket and adjust the strap to lengthen or shorten it until the door is able to open the desired amount.
6. When you are satisfied with the placement of the Strap Bracket and the weld-on Bracket weld the Bracket to the X-Brace.
