Part # CAM082 8 foot CAM
Part # RAT082 8 foot Ratchet
Part # RAT122 12 foot Ratchet

COBRA

RETRACTABLE RATCHETING TIE-DOWN STRAPS

COBRA

Cobra-Retracting Tie-Down Strap has a strong work capacity; with its Retractable 8' Long x 1-7/8" Wide strap. Best of all it's fun, and makes easy work when securing loads. Set the handle to the draw-out position, then pull strap/hook to desired connecting location, return to handle and ratchet tight. To release, just pull up on handle release, position handle to draw, then release the S-hook and the strap safely/automatically recoils into it's own weather resistant housing.

The Cobra can be connected to all Core Trax System models using the Core Utility Lock (Threaded Stud sold separately) or it can be bolted down to any strong substrate. When using a Core Trax system & Utility Lock, this allows for easy repositioning of the Cobra along the CORE Trax System. It has a useful working load of 1,500 lbs. Part # RATRE08

COBRA Retrax mounted using CORE's Utility Lock

New! COBRA Retrax Tie-Down Strap...It Makes Work Fun!

CARGO BARS & LOAD BARS

Trucks, Trailers & Containers

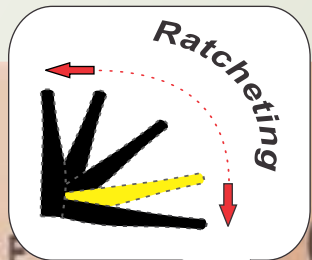

Jr. Maxx Cargo Bar

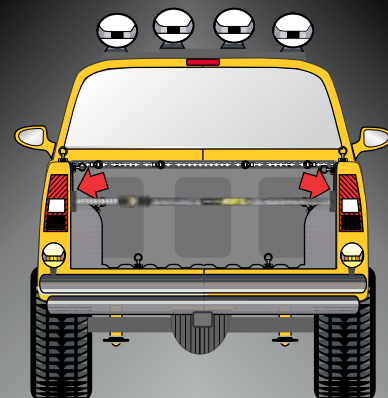

Products USA

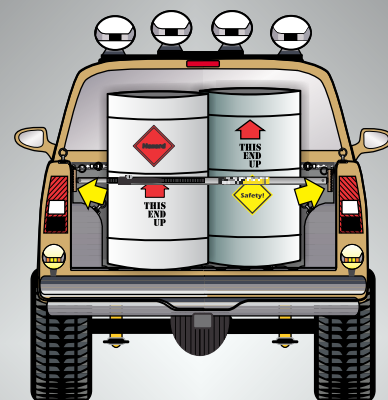

Jr. MAXX Cargo Bar 40" x 70"

Jr. MAXX Ratcheting Cargo Bar. This strong, easy to use consumer grade Ratcheting Cargo Bar helps make securing loads easy. It's easy grip ratchet handle, strong steel support bar and gripping feet combine to make it a must have item, and a real CORE Value.

Jr. Maxx Ratchet Cargo Bar

Big Maxx TRUCK Load Bar
Part # BMB5671 - Fits 59" to 74"

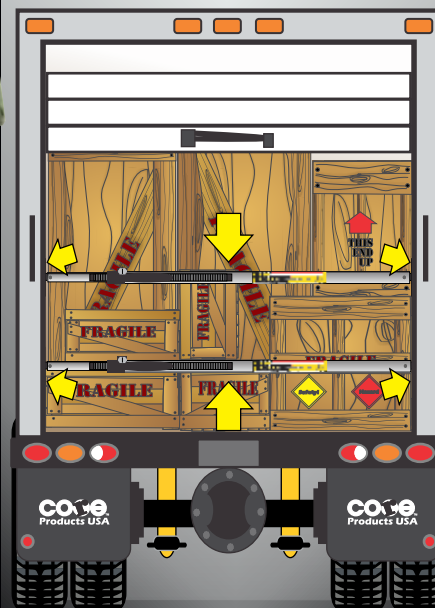

BIG MAXX LOAD BAR

Big MAXX Truck Load Bar 59" x 74"

Big MAXX Trailer Load Bar 89" x 104"

Big Maxx TRAILER Load Bars
Part # BMB89103 - Fits 89" to 104"

Big Maxx commercial grade Load Bars are designed for commercial cargo and are now available to you in two sizes: The Truck Bar and longer Trailer Bar!

Coreganizer™ shapes around objects to assist them from movement while transporting them.

Used daily in Car Trunks, Cargo areas of Vans, SUVs, Trucks, RVs, Boats, etc...

COREGANIZER/MAT & Li'l Sport Stretch Net

Coreganizer™ Really Amazing; Simply form the Coreganizer™ around objects to assist them from movement, or position the Coreganizer™ over lighter objects to keep them from rolling/sliding. Works with all looped carpets. Great in Trunks, Cargo areas of Vans, SUVs, Trucks, RVs, Boats, etc...

Core Accessory Mat; It can be used when access to looped carpet in your vehicle is not available. Core MAT is equipped with looped carpet on the topside and the underside is made with a slip resistant coating.

The rubberized backing works well on most surfaces to prevent sliding under normal driving conditions.

Part # CG240B Coreganizer
Part # CM1830 Core MAT
(size 18" X 30")

The **Li'l Sport Stretch Net** works great on motor cycles and roof & rear racks. Comes with six plastic hooks, stretchable knotted cord. Size (stretch to) 25" X 25"

Part # LSN1515
(base size 15" x 15")

Keep One Handy... You'll be glad!

In use with available Core MAT

Cargo Hooks
Detachable Tie-Downs

Light Duty/Working Load 150lbs

Cargo Hooks
Detachable Tie-Downs

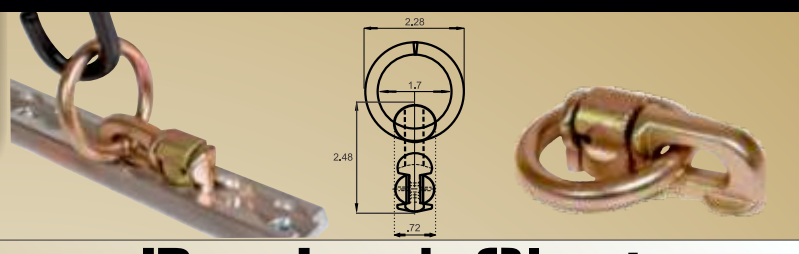

Commercial Items

MAXX Trax 2000

Commercial Grade MAXX Trax 2000 provides the load holding strength you require. MAXX Trax 2000 was designed for the commercial market. Made from strong 6061-T6 aviation alloys. The low profile allows for placement where you need and want! Place them end-to-end for endless tie-down possibilities. Useful working load 1,100 lbs. Available in 6.0' - 8.0' lengths.

Duo Lock Cleat

Duo Lock Cleat: Used when extra holding strength is required. The base of the cleat has a double positioning foot that spreads the load pull. It has a useful working load of 1,200 lbs. Duo Lock Cleat Only. Part # CTDSL2

Load Locks

Load Locks with aluminum or glass nylon retainer. Locks in or removes in seconds. Strong and versatile with optimal positioning along the CORE Trax tie-down systems. Each has a useful working load of 650 lbs. PART # CTTL (Glass Nylon Retainer) PART # CTTL-SS (Stainless Steel PIN/Glass Nylon Retainer) or Part # CTTL-A (Aluminum Retainer) and.

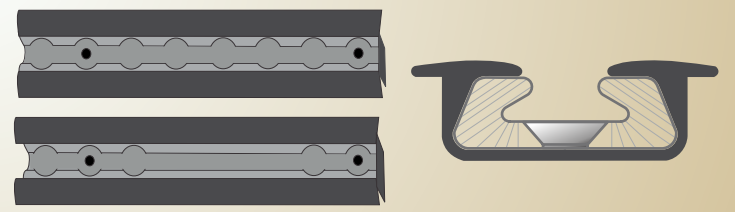

Utility Lock Stud

Utility Locks are ideal for securing 100's of items: tool boxes, wheel chocks, smaller generators, tools, equipment and much more. They have a useful working load of 350 lbs. Part # CTTSU

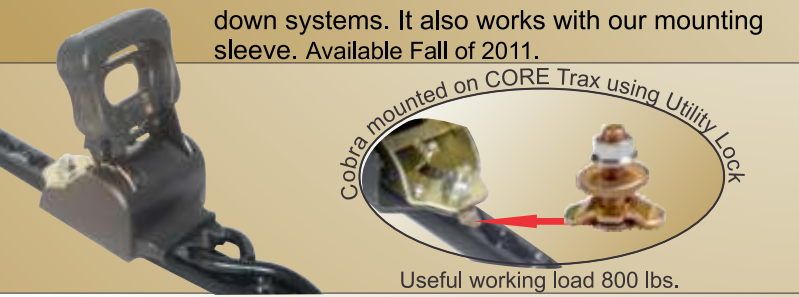

Trax Filler Strip

for Uni Trax 1000 & Maxx Trax 2000
 Filler Strip helps prevent debris build up in center of the trax. This can create obstacles for inserting Lock-IN-Load Attachments. Fits both Uni Trax 1000 & Maxx Trax 2000 tie-down systems. It also works with our mounting sleeve. Available Fall of 2011.

Floor Mount Sleeve

For MAXX Trax 2000
 This plastic sleeve allows the Maxx Trax 2000 to be recessed into floors or walls with a clean, finished look. This helps to eliminate debris build up between trax and cutout area. The top wing helps to protect trax material and finish. Available Fall of 2011.

COBRA Retrax

A retractable tie down strap that saves you time... time is money! The COBRA has strap feed response and auto recoiling action. Makes swift work out of protecting your cargo. Weather resistant housing adds life to your investment. Connects to all Core Trax models using Core's Utility Lock, or it can be bolted to a strong substrate. 8' Strap 1-7/8" wide webbing. Part # RATRE08

Custom Straps

CORE can make custom orders in lengths and other particulars such as custom end attachments on CAM and Ratchet straps. These custom orders are available to OEM's and Outfitters. Minimum order volumes apply.
