

CARGO SAFETY COVER™ Use Instructions

Attaching the Cargo Safety Cover™:

1. Unfold the Cargo Safety Cover™/Net and place it in the truck bed or cargo area so that the adjusting CAM buckle is located to the rear left (driver's side) of the vehicle.
2. Connect the front fasteners to tie downs at the front/bulkhead of the truck bed (just behind the cab).
3. Now connect the rear fasteners to tie downs at the rear of the truck bed (near the tailgate).
4. Straighten any twisted/folded areas of the netting or perimeter strap and adjust the perimeter strap as necessary.

NOTE: Loosen the strap at CAM buckle to facilitate installation. You may need to reposition the strap end clip to allow additional adjustment.

To use the Cargo Safety Cover™:

1. Once installed, adjust perimeter strap tension as necessary.
2. For taller cargo loads, loosen the perimeter strap at the rear buckle.

NOTES: As the strap loosens the height capacity of the Cargo Safety Cover™ increases. The Cargo Safety Cover™ can remain on the vehicle at all times, or be removed after use. If additional tie down straps are used on the cargo cover, connect them to the perimeter strap rather than the netting. This cargo cover is designed to stop the "airplane" effect of objects carried within the vehicle and is not intended to be used as a tie down or to prevent shifting of heavy objects. Avoid sharp objects in connection with Cargo Safety Cover™ as they may cut or damage Cover. Loads shift & settle; inspect after 10 miles; then every 40/50 miles thereafter (inspect in shorter intervals if on rough bumpy roads or inclement weather). Make sure all connecting points on vehicle are secure. Always secure heavy objects within the cargo area before attaching Cargo Safety Cover. Use protective covering over upholstered surfaces.

For larger loads, Extension Straps can be used in combination with the Cargo Safety Cover™.

WARNING: Inspect product before each use. **DO NOT USE:** If product is deformed, worn, damaged, rusted or not securely installed. Avoid contact with sharp objects, flame or chemicals that may damage or weaken product, as these conditions may result in severe **DAMAGE** to persons or property. Product is **NOT** designed nor to be used as a personal restraint, or towing device. **USER** assumes full responsible for determining product's safe condition and suitability for a particular purpose. **NOTICE TO PURCHASER:** Core Products USA is not responsible for damage or injury caused by improper use of products.
