Remember the exhilarating sound of performance?

CORSA brings back the thrill.

Remember when you were young? You needed just a clothespin and a couple of playing cards to evoke the exhilarating sound of performance that sent your soul soaring. The loud growl when you pedaled as fast as your legs could carry you...the soft purr as you coasted down the sidewalk and into your best friend's driveway.

Today, you're older, wiser and drive better, more expensive toys. Yet, you're still looking for a way to recapture those days when performance had that special sound and feel. Now you can bring back those exhilarating emotions with the CORSA RSC™ exhaust system developed specifically for your Cadillac XLR.

A New World Standard.

Introducing the Sound of Luxury Performance.

Bold when you want it to be. Quiet when it needs to be.

Having defined the standard in the aftermarket exhaust industry with the Corvette C5 exhaust system in 1998, CORSA was ready to take on the challenge of designing premium systems for a wide variety of vehicles. CORSA has done just that. Today, CORSA has set a world standard in the industry. Discriminating Cadillac owners everywhere have chosen to enhance their vehicles with the sound and look of CORSA. With systems already developed for the STS, DTS, CTS, CTS-V, Escalade and Escalade EXT, CORSA introduces luxury performance sound and superb looks for your XLR.

The CORSA Distinction

No Other Exhaust Manufacturer Delivers All Three:

- **NO RESONANCE/DRONE**
Due to patented Reflective Sound Cancellation™ (RSC™) technology; your exhaust is whisper quiet at highway speeds.
- **Increased Horsepower and Torque**
Resulting from a straight-through, nonrestrictive design; increased flow and less backpressure.
- **Great Performance Sound**
We tune in the good sounds and cancel the bad, without the use of baffles or steel wool packing material.
