

CUSTOM SUNSHIELD INSTALLATION

INSTALLATION:

- Read entire installation instructions before proceeding
- Make sure vehicle is clean and dry
- Check for any sharp objects on the vehicle that may damage the cover

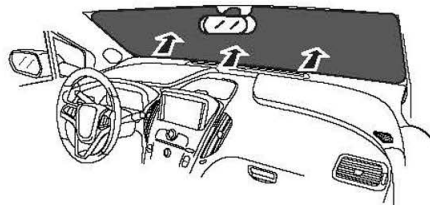

1. Unroll Sunshield

Release the hook and loop fastener strap and unroll your sunshield.

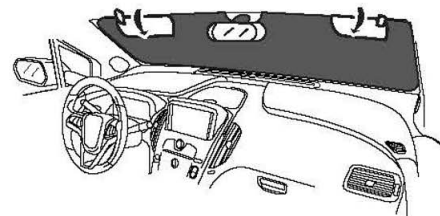

2. Install Sunshield

Place the sunshield inside the windshield behind the rearview mirror, with the logo facing outward.

3. Secure Sunshield

To keep your sunshield in place, lower both sun visors.

TIP: To clean your sunshield, wipe with a damp cloth.

How To I Install My Coverking Sunshield?

Below are the steps to properly install your Coverking sunshield, with the differences in vehicles designs some of the installation procedures may differ. Feel free to contact us directly if you have any issues with your sunshield.

1. Loosen up the hook and loop fastener strap and unroll your Coverking cover.

2. Place the Coverking cover between the dash and windshield with the silver side facing outward.

3. If acceptable fold the Coverking cover around the rear view mirror.

4. Fold down the passengers side sun visor to hold the top of you cover in plac
