

TJ Dash Tray Installation Instructions
P/N: RT27016

Kit Contents:

- 1 – Dash Tray
- 2 – Self-Tapping Screws

1. Remove the rubber insert from the top of the dash panel (See Figure 1).

Clean the dash panel thoroughly.

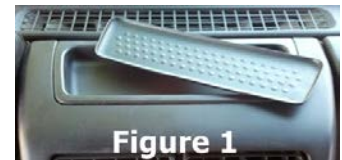

Figure 1

2. Place the dash tray on top of the dash panel (See Figure 2). Ensure the dash tray is straight and affix the tray to the dash panel using the supplied self-tapping screws.

Figure 2

3. Trim the rubber insert until it fits snug in the large pocket in the dash tray.

Note: Use a UV protective cleaning agent frequently to help prevent the tray from sun fading.
