[Lower Arm Bar Version 2](#)

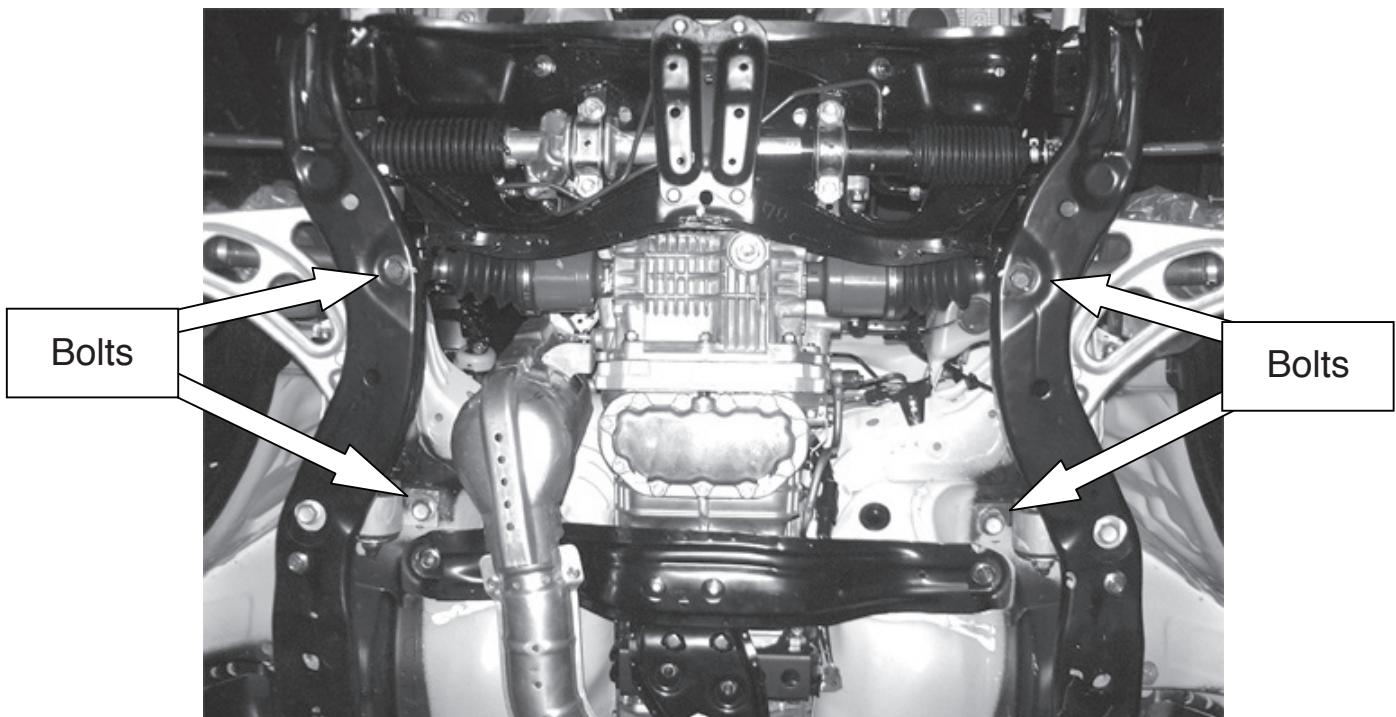

[Part Number]	666 477 A
[Application]	Subaru Impreza WRX GDA Subaru Impreza STi GDB Subaru Impreza Wagon STi GGB Subaru Impreza Wagon GGA [AT/MT]
[Product]	Lower Arm Bar Version 2
[Description]	Front Lower Arm Brace 4 point
[Contents]	Lower Arm Bar Ver.2 x1

[Procedure]

- 1.) Remove engine and transmission undercover tray, save all the hardware.

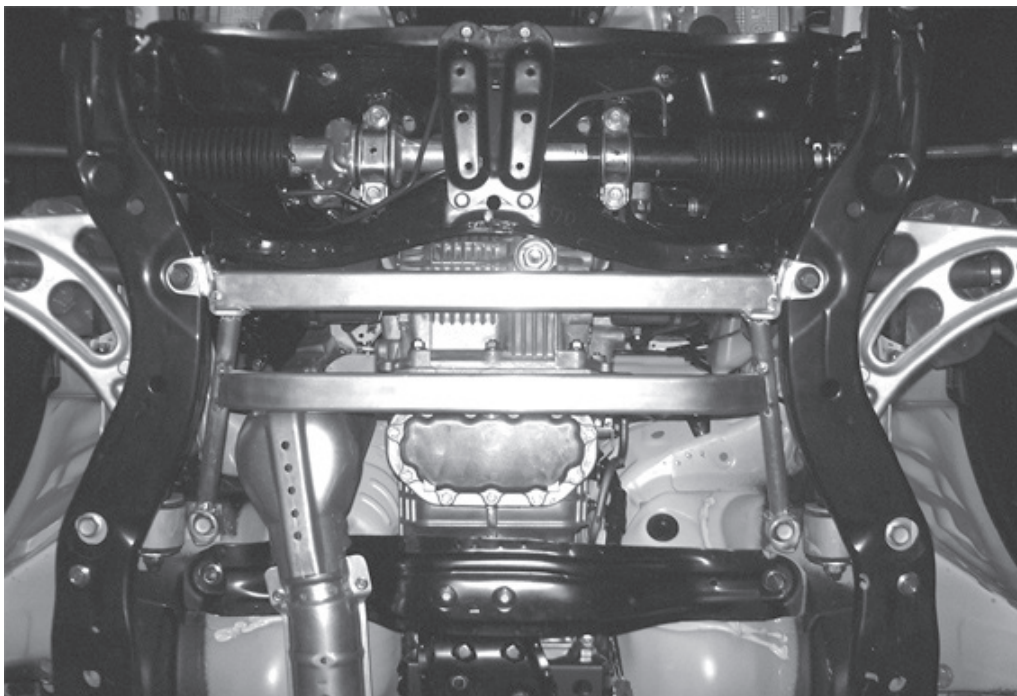

2.) Remove the four bolts shown below.

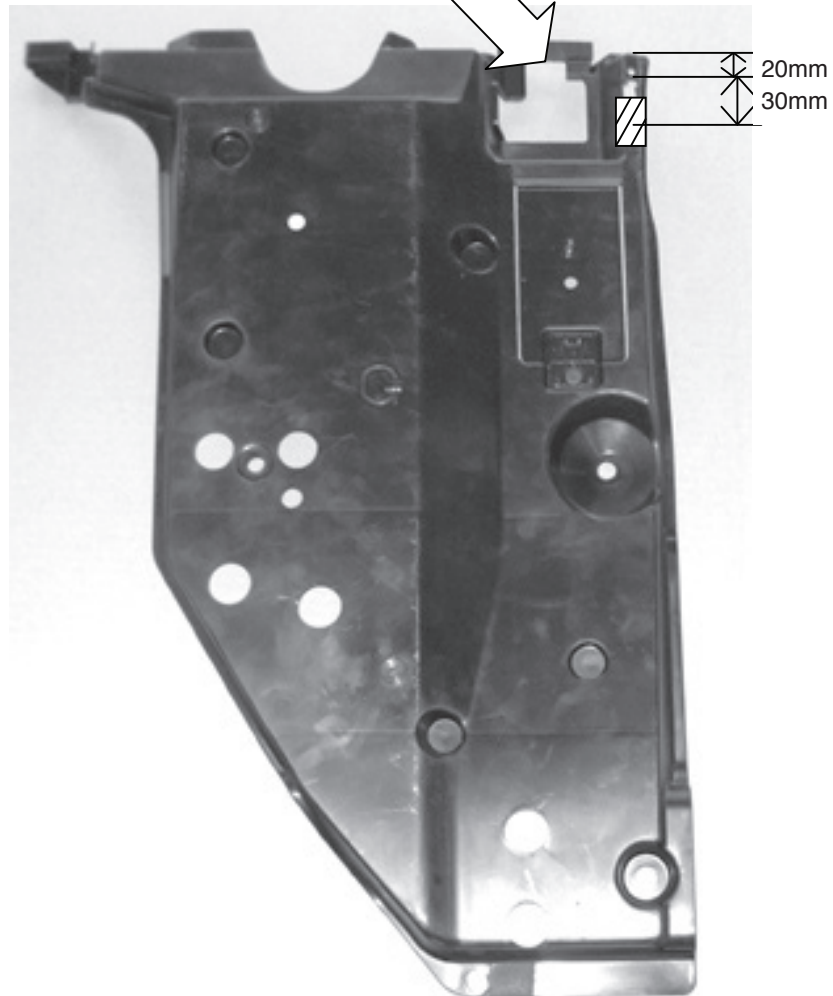

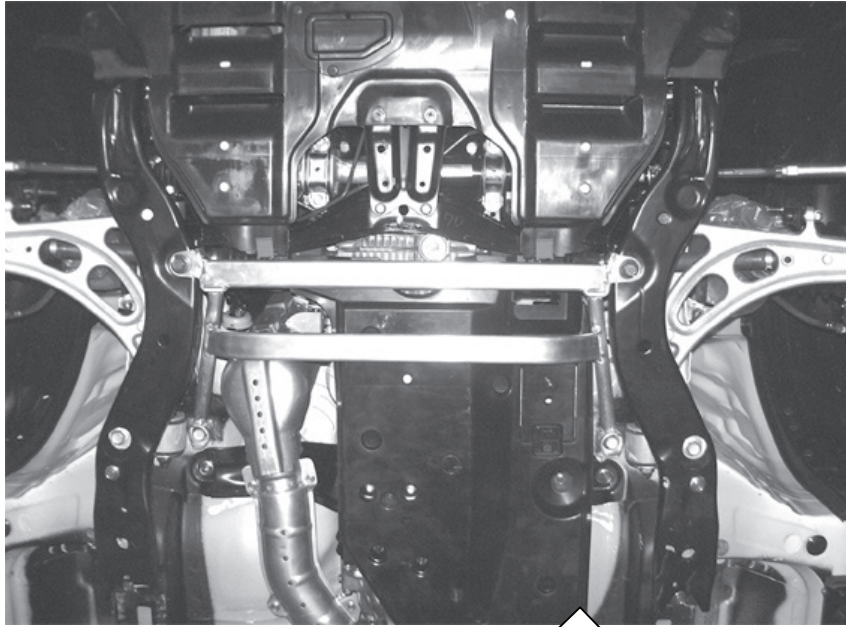

3.) Install the Cusco lower arm bar in the position shown by reusing the removed bolts in step 2.
Torque according to factory service manual specifications.

Installed

- 4.) Reinstall the undercover trays that were removed in step 1. The transmission undercover will require slight modification. Start trimming the shaded area in Fig.1 until the tray fits snug.

*Periodically inspect and retorque all nuts and bolts after vehicle operation.
