¹ Smaller covers can be washed at home but commercial washers without agitators provide the best cleaning & rinse.
² Warranty is for defects in material, workmanship and against the fabric becoming unserviceable under normal use. We will repair or replace any defective panels after factory inspection.
³ Due to the unique printing process used, printed fabrics are not warranted against UV fading or abrasion.
Our goal is to offer the widest range of fabrics to meet the needs of our customers. Use the chart above to help select which custom fabric is best suited for the protection needs of the vehicle.
Remember that, by saving a cover, you are protecting both the exterior and interior of your vehicle.

WORLD'S BEST CUSTOM CAR COVERS

For more than 50 years Covercraft has manufactured premium quality exterior and interior protection products for automotive enthusiasts, building a reputation for quality, durability and design. Our mission is to continue leading the market, maintaining the highest standards, utilizing the finest materials and remaining on the cutting edge of manufacturing technology --- putting "Covercraftsmanship" into every product we make!

Custom Covers

Protection For Whatever You Drive®

Covercraft is the world's largest manufacturer of custom covers. If it's not in our database (and we go all the way back to an 1890's Daimler), we'll provide an easy-to-complete custom dimension sheet. We offer the widest assortment of fabrics, selected for your specific needs.

Customs & Classics

Street rods... classic cars... show trucks... street racers...

If it's got wheels, Covercraft can cover it! Our application guide lists only our top 2400 patterns. There are over 80,000 patterns in our digitized cutting library and more are added every day. We also make covers using dimensions supplied on one of our special pattern sheets so, even if the vehicle has been modified, we can still make a cover for it.

Cover Fabrics

Outdoor / Indoor Fabrics

- **WeatherShield® HD** - Developed primarily for intense sun environments.
- **Sunbrella®** - Best for intense sun environments.
- **Ultra'tect®** - Developed from the need for a cover that would retain its color and strength in extended outdoor exposure, while providing a high degree of water resistance and UV protection at a reasonable price.
- **WeatherShield® HP** - The ultimate in all-weather protection. Now available in eight colors.
- **NOAH®** - High-tech barrier fabric, provides water and dust resistance.
- **Grafix™** - Attention-getting printed designs on lightweight DWR finish fabrics.
- **Evolution® (Technalon®)** - Our most popular all-weather fabric.
- **Reflec'tect®** - Easy to handle for installation and removal, this lightweight cover provides good all-season protection.
- **Block-it® 380** - Provides better outdoor protection.
- **Block-it® 200** - Provides good, basic protection.

Indoor Fabrics

- **Form-Fit®** - Indoor covers are body-hugging polyester knit.
- **Fleeced Satin** - Indoor covers with a super soft white nylon fleece finish inside to provide a gentle touch.
- **ViewShield™** - Dust resistant translucent nylon 30 denier ripstop fabric.
- **Dustop®** - Softest against fine paint finishes and almost totally dustproof.
- **Tan Flannel** - Super-soft natural finish to pamper the vehicle's body.
- **Polycotton** - A lightweight, durable blend. Best for inside storage.

All Covercraft fabrics are breathable, which allows moisture to easily evaporate and reduce heat build-up.

All covers feature super-strong, double-stitched, overlapped seams.

We sew urethane elastic into the hems at the front and rear to help hold the cover in place.

Reinforced, non-scratch grommets are standard on every cover. (Can be used with supplied tie-down rope or optional vinyl-coated cable and lock.)

HIGH-PERFORMANCE WOVEN FABRICS

Our Exclusive High-Performance Fabric

Over 20 years ago Covercraft partnered with Nextec Applications, Inc., a technology leader that pioneered a new process for creating performance fabrics used primarily in the outdoor clothing industry. Through precise polymer placement and special chemistries, they were able to place protective finishes inside the fabric, encapsulating the actual woven fibers to transform ordinary fabric into extra-ordinary! The encapsulation processes, methods and equipment are protected by more than 51 patents issued or pending in the U.S. and internationally. Working with Nextec's extensive R&D resources, Covercraft created what is considered the "perfect" fabric for outdoor or indoor vehicle protection.

EPIC[®] by Nextec's encapsulation process delivers all-weather protection, compact packability, easy care, and a soft-to-paint touch without sacrificing breathability.

WeatherShield is not waterproof but, if kept clean, it will shed most water and help prevent dust, dirt, bird droppings and tree sap from reaching the vehicle surface. The breathable properties of the fabric assure that any heat, moisture or condensation under the cover can easily escape.

WeatherShield[®] HP Colors

Multi-Color WeatherShield[®] HP Covers – Now you can also mix and match WeatherShield[®] HP fabric colors to personalize your custom cover. Specify a DECK color (hood/roof/trunk) and SIDES color (both sides and mirror pockets, if applicable, are the same color). Think of the possibilities! Order fabric code "PX" and specify colors for deck and sides.

Limited warranty - 4 years

HIGH-PERFORMANCE WOVEN FABRICS

WeatherShield's Key Features and Benefits

- **Dramatic Rain Dispersion** - Fabric sheds water as soon as it hits the cover.
- **Superior Dry Time** - Because the fabric sheds moisture, just shake the cover and it dries in minutes (HD fabric is heavier and requires additional drying time).
- **Breathable** - Allows any heat, moisture or condensation under the cover to easily escape.
- **UV Resistant** - Special additives to the encapsulation formula reduce fabric UV degradation.
- **Superior Paint Finish Protection** - Silicone polymers used in the encapsulation formula help create a silky-smooth finish that's even less abrasive than flannel (HD uses heavier denier thread which is not as smooth).
- **Packs Small** - Cover packs into roughly 1/3 the volume of multi-layer fabric covers (HD covers are bulkier).
- **Easy Care** - Wash and dry at home...most mid-size covers will fit in home washers and dryers - and, unlike non-woven materials, they can be thrown in a dryer.
- **Durable Fade-Resistant Base Fabrics** - Premium automotive-grade dyes help the covers resist fading and hold their color longer.

"Outsmart the Outdoors[®]"

Developed primarily for intense sun environments and long-term storage, WeatherShield[®] HD not only provides UV opacity, it repels water, blocks dust, tree sap and bird droppings, and is still breathable to allow moisture and heat to escape from under the cover.

Gray - HG
Limited warranty - 6 years

HIGH-PERFORMANCE WOVEN FABRICS

Durable Outdoor Protection

Ultra'tect® covers were developed from the need for a cover that would retain its color and strength in extended outdoor exposure, while providing a high degree of water resistance and UV protection at a reasonable price.

Limited warranty - 5 years

We protect your vehicle, and your selection of this fabric helps to protect our environment! Ultra'tect® and Sunbrella® use a superior fade-resistant solution-dye production process that SAVES 1,000 gallons of water for every 1,000 yards of fabric produced.

Ultra'tect is made from a solution-dye WeatherMax®SL fabric with the following features and benefits:

- **Fade Resistant** - WeatherMax yarns have the color added to the polymer before it is extruded into yarn form for maximum fade resistance. (Each fiber is a solid color, NOT surface dyed.)
- **Superior Shape Retention** - WeatherMax fabrics are resistant to sagging because the fibers are designed to have minimal stretch.
- **Strong** - Using double 150 denier yarns in both the machine and cross direction (2/150's MD & CD) helps provide higher strength and better water resistance than using single 300 denier yarns.
- **Luxurious "Hand"** - The weave gives Ultra'tect covers more durability and dimensional stability with a luxurious "hand" or feel.
- **Water Resistant** - A highly water-repellent HydroMax finish on BOTH sides of the fabric helps protect against rain, while maintaining the fabric's breathability.
- **Excellent UV Protection** - Ideal for applications that are subject to prolonged sun exposure and extreme elements.
- **Easy to Use** - Ultra'tect's fabric weight is "just right" for easy use...heavy enough to stay in place and light enough to easily handle on a day-to-day basis.
- **Easy to Clean** - Most mid-size vehicle covers can be cleaned in a home washer and dryer.

PROTECTION FOR WHATEVER YOU DRIVE®

HIGH-PERFORMANCE WOVEN FABRICS

Lightweight Sun Protection

Easy to handle for installation and removal, this lightweight cover provides good all-season protection.

- Woven fabric has a UV-reflective silver-colored finish that helps keep the vehicle cooler.
- Fabric is water resistant and also repels dust and dirt to help keep the vehicle clean.
- Compact for easy trunk storage.

Silver - RS
Limited warranty - 3 years

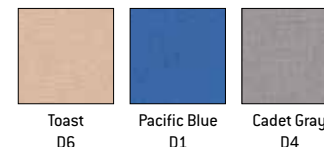

Best For Intense Sun Environments

Thanks to its unique construction process, Sunbrella® provides protection and years of service in intense sun climates like Arizona and other areas of the Sunbelt, where UV rays can rapidly degrade the paint and interior. Because of the use of acrylic fibers, which are naturally UV resistant, Sunbrella has long been the recognized leader in long-wearing marine fabrics for bimini tops, sail covers and deck enclosures. Besides marine uses, Sunbrella is also used for commercial awnings due to its ability to provide UV blockage, along with a rich, woven finish. The acrylic fibers are solution dyed, before the fabric is woven, to assure the color goes all the way through the fabric. Using a special finish process, the material is then softened for use as a car cover fabric. The fabric is exceptionally strong and, coupled with its UV resistance, it also makes an excellent cover for RV's and trailers that spend extended time stored outside.

- Long-Lasting Strength
- Fade Resistant
- Water Resistant
- Rot, Mildew Resistant

Limited warranty - 6 years

WORLD'S BEST CUSTOM CAR COVERS®

GRAFIX SERIES

Introducing the COVERCRAFT GRAFIX SERIES of custom car covers!

Grafix Series™ Custom Covers

Durable and strong 75 Denier fiber construction (used in our popular WeatherShield® covers) results in a fabric that is:

- Lightweight, easy to handle, and compresses in size for compact storage.
- Soft to the touch - the fibers themselves are not stiff enough to scratch paint finishes.
- Easy to clean due to its compact size, most covers can be laundered in your home washer/dryer.

GRAFIX SERIES

Attention-getting printed designs on lightweight DWR finish fabrics.

Grafix Series Custom Covers features & benefits include:

- Covers breathe to allow condensation to easily evaporate from under the cover.
- The fibers are naturally resistant to UV fading, and the printed ink colors are tested for UV resistance to 700 hours.
- DWR (durable water repellancy) finish for light dew and to resist stains.

Limited warranty - 4 years

While we utilize UV resistant printing inks, they will fade naturally like all printed products used outdoors, making each cover unique as it ages, at the same time protecting the vehicle finish and interior. Due to the specialized printing process used, printed fabrics are not warranted against UV fading or abrasion.

Grafix Series Custom Covers will be available April 1st, 2016

HIGH-PERFORMANCE NON-WOVEN FABRICS

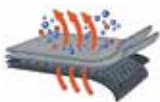

All-weather protection using film barrier technology

NOAH® barrier fabric actually stops water, yet it "breathes" to allow any trapped moisture, seam seepage or condensation to easily evaporate. The unique construction process (patent pending) results in a cover with maximum all-weather protection...highly water resistant, dust resistant, UV resistant and breathable...to help make sure moisture and/or heat won't stay under the cover. Made in the U.S. by Kimberly-Clark, the fabric weighs only 4.75 oz./sq. yd., so it's easy to handle and fold.

Gray - NH
Limited warranty - 4 years

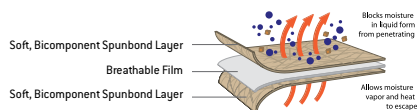

Dual Protective Outer Layers
Microporous Film Middle Layer
Soft, Paint-Protecting Inner Layer

Performance at a value price

380 Series fabric is Kimberly-Clark's newest film barrier fabric, offering great performance at a competitive price. At 3.2 ounces per square yard, it's about half the weight of the popular high-performance NOAH® fabric. The three-layer construction uses inner and outer layers of spunbond, sandwiching a middle layer protective film barrier. The film barrier has microscopic holes, smaller than droplets of water (and most dust particles), to stop moisture but still allow any moisture vapor or heat to easily escape from under the cover.

- **3-Layer SFS** - Designed for cost-effective performance.
- **A General-Protection Fabric** - With an inner film barrier that provides an excellent balance of water resistance, breathability and softness.
- **Soft Touch** - Inner layer is bicomponent spunbond to pamper the vehicle's finish.

Taupe - TT
Limited warranty - 3 years

PROTECTION FOR WHATEVER YOU DRIVE™

HIGH-PERFORMANCE NON-WOVEN FABRICS

Our most popular all-weather fabric

Technalon® covers, made with Kimberly-Clark's (K-C) Evolution® fabric, provide an excellent protection value in all weather conditions. Often imitated, but never equaled, U.S.-made Evolution® fabric covers are used by millions of car enthusiasts around the world. Evolution® has the highest UPF rating to provide maximum protection against damaging UV rays. Protecting your paint and interior helps maintain the vehicle's value. Polypropylene fibers are bonded into a durable 4-layer non-woven finish that includes a soft bi-component inner layer of polyethylene and polypropylene fibers.

EVOLUTION® Gray with our Grafix Series™ Daisy Print. Not to be left out of this exciting new look in vehicle covers, the Team at Kimberly-Clark took their popular Evolution fabric and printed it with a nostalgic daisy print. A fun look for one of our best selling protective fabrics!

Gray - GK

Tan - TK

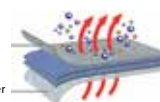

Gray - DK
Daisy Print

All have soft gray inner layer.
Limited warranty - 4 years

Stronger Top Layer

Softer Bottom Layer

grafix
series

Due to the unique printing process used, printed fabrics are not warranted against UV fading or abrasion.

Grafix Series Custom Covers will be available April 1st, 2016

- **Maximum UV Protection** – Highest UPF rating of all K-C fabrics.
- **Soft-to-Paint Inner Layer** – Bi-component technology blends polyethylene for softness and polypropylene for strength to assure gentle protection for paint finishes.
- **4-Layer Barrier** – Protects against bird droppings, tree sap and industrial pollutants.
- **Dust / Pollution Barrier** – Two middle layers of melt-blown fibers act as a filtration barrier against most airborne pollutants.
- **Dries Easily** – Moisture is not absorbed by the fabric fibers.
- **Breathable** – Allows any moisture or heat under the cover to easily escape.
- **Impact Absorption** – 4-layer thickness absorbs impacts to help protect the finish from nicks, dings, dents and scratches.

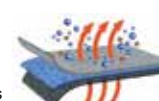

A mid-price leader in quality and performance

Kimberly-Clark developed Block-It® 200 Series fabric to be a mid-price leader in quality and performance. It uses 3-layer polypropylene construction for moisture and dust resistance, and the fibers are treated for extra UV resistance. If you are looking for an inexpensive cover for indoor storage and limited outdoor use, this U.S.-made fabric offers good, basic protection and is an excellent value.

Gray - SG
Limited warranty - 2 years

WORLD'S BEST CUSTOM CAR COVERS™

HIGH-PERFORMANCE INDOOR FABRICS

FLEECE SATIN

Gentle touch to fine vehicle finishes

Features a woven polyester outer shell with a super-soft white nylon fleece finish inside to provide a gentle touch to fine car finishes. Fleece Satin fabric has a slight stretch for a more contoured fit (but not the body-hugging stretch of our Form-Fit® covers). The result is a very nice mid-weight custom cover! 4.7 oz/yd vs. 7.4 oz/yd for Form-Fit (that's ounces per square yard).

An excellent value for indoor use (and limited outdoor use - like at a weekend car show), Fleece Satin is offered in three colors.

Red - F3 Gray - F4 Black - F5
Limited warranty - 2 Years

Super-soft white nylon fleece finish.

Covercraft Exclusive

TAN FLANNEL

Favored by traditional enthusiasts

Tan Flannel always provides a soft touch to pamper fine paint finishes. Designed primarily for indoor storage use, this woven cover is constructed from a durable polycotton blend with a napped underside finish.

- **Flannel Underside** - Soft, napped finish.
- **Long Wearing** - 50% heavier than most standard polycottons.
- **Breathable** - Allows moisture to evaporate and will not trap heat under cover.
- **Water Resistant** - Treated for moisture repellency.
- **Rot, Mildew Resistant** - Treated to resist rot and mildew.

Tan - TF
Limited warranty - 90 days

POLYCOTTON

Lightweight sun protection

Durable, woven polycotton blend offers good basic vehicle protection. Polyester is sun and water resistant, while cotton gives a soft touch to the vehicle's finish.

- Good basic indoor protection.
- Drill weave polycotton blend.

Gray - PD
Limited warranty - 90 days

HIGH-PERFORMANCE INDOOR FABRICS

Our most LUXURIOUS indoor cover...

For years, European automotive enthusiasts have used lightweight, stretch fabric dust covers to protect fine vehicles that are stored indoors. The problem with these covers is that most are only "t-shirt" thin fabric and, over time, the cover becomes baggy because it tends to stretch out of shape and lose memory. Covercraft developed a superior fabric for our Form-Fit® cover program using a polyester knit with spandex added to the yarns. That addition assures stretch AND the memory to return to shape. 100% cotton terry loop for the inside surface is interwoven in the knit, then sheared to a soft luxurious finish.

Covercraft Exclusive

Unlike t-shirt type fabric, a Form-Fit cover acts like a soft fleece robe... wrapping the vehicle... following the lines and contours... caressing and pampering glowing paint and metal surfaces. This 7.4 oz. per sq. yd. fabric has an exceptionally soft and cushiony feel. It's got some bulk to provide a little protection against dings and dents, and it is machine washable when it gets dirty. For anyone who "spoils" their favorite ride, Form-Fit covers from Covercraft are sure to be the ultimate cover!

Available in six (6) colors:

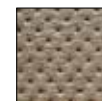

Limited warranty - 4 years

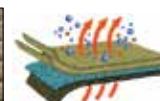

DUSTOP
SOFT AS FLANNEL

Maximum protection against dust

Softest against fine paint finishes and almost totally dustproof. The top two layers are polypropylene/polyethylene spunbond with a meltblown polypropylene middle layer to provide a superior barrier against dust. The soft, high-loft composite spunbond inner layer pampers and protects the vehicle's finish. Multi-layer construction provides substantially better dust protection compared to traditional woven material.

Taupe - TS
Limited warranty - 4 years

Fabric
Made in the USA

HIGH-PERFORMANCE INDOOR FABRICS

What's the point of collecting and/or building a dream car if you can't see it and enjoy it?

So picture this.... you're having a gathering in the Man Cave - you want your friends to admire "your baby"but don't touch! Until now, your options were to leave the car uncovered for viewing or covered for protection - the ViewShield cover changes that! The ViewShield cover allows the vehicle's colors and most of the details to be visible - but protected. No fingerprints, no dust buildup.

- Custom patterned for a perfect fit, with elastic inside the hem at the front and rear.
- One-piece side panel to enhance the view.
- Special dust resistant translucent nylon 30 denier ripstop fabric.
- Sewn seams are overlapped, double needle stitched, as are all Covercraft covers.
- Fabric finish treatments include PTFE (an enhanced Teflon® repellency finish), standard stain and water repellency [accidents do happen, especially when beer is involved] and MR/ mildew resistance.
- Lightweight, easy on / easy off and folds to a super compact size.
- Easy care, machine washable.

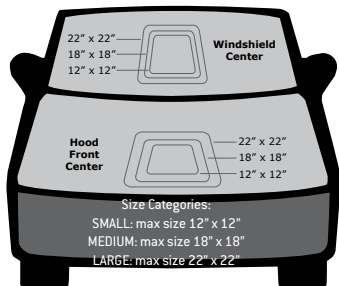

Translucent - VS
Limited warranty - 4 years

DIGITAL GRAPHIC PERSONALIZATION

Great For Car Clubs!

Now you can provide most any COLOR image to personalize your custom car cover! We will convert the image into a heat transfer graphic and bond it to the cover. Available on hood front center or windshield center.

For Custom Car Covers

CUSTOM COVER ACCESSORIES

Gust Guard® - helps hold car and light truck covers in place. Kit includes: 2 - "FIXED" Ratcheted Hem clamps, 2 - "CINCH GRIP" Cord-lock and Ratcheted Hem Clamp COMBOS, 2 - Seven foot long white cords.

Custom Embroidery - custom covers can be personalized with embroidered initials, monograms or names.

Storage Bag - polycotton duffel bag with drawstring.

Tote Bag - zippered storage bag with web straps. Constructed of durable vinyl-coated polyester fabric. Helps keep cover neat and clean when not in use. Two sizes accommodate most covers. Available in Gray (GY), Black (BK) or Tan (TN).

UVS100* Custom Sunscreens
have pre-selected logos

In the spring of 2014 the Ford Mustang celebrated 50 years as an American icon. In honor of becoming the newest member of a very exclusive club – vehicles in continuous production for 50 years – Ford created a custom logo to memorialize the occasion. Only 50 companies were licensed to sell these commemorative special edition products. Covercraft is proud to be one of these select few, offering both our custom-patterned car covers and UVS100* Custom Sunscreens. Mustang created the “muscle car” segment in the automotive industry, a design that not only turned heads on the street but also dominated in racing, capturing the hearts of loyal fans everywhere. For a limited time Covercraft is offering all Mustang custom patterns for car covers and UVS Custom Sunscreens with the option of a Special Edition Mustang “50 YEARS” silk-screened logo (with or without border). Choose from any of our custom cover fabrics for your Mustang cover, and don’t forget that UVS Custom Sunscreens are now available in five [5] colors.

Most front seat covers include handy map pockets

Durable overlapped, triple-needle stitched main seams

Sewn-in elastic tension helps keep the SeatSaver in place

Easy care, wash & dry at home

CARHARTT® OFFICIAL LICENSED PRODUCTS

Ultra'tect® Custom-Patterned Pickup/SUV Covers

Ultra'tect® covers were developed from the need for a cover that would retain its color and strength in extended outdoor exposure, while providing a high degree of water resistance and UV protection at a reasonable price. Ultra'tect® covers feature Carhartt® Rain Defender® durable water-repellent (DWR) protection. Available in Carhartt® Brown or Gravel, these covers proudly display the Carhartt® logo on both side panels and across the tailgate area.

Ultra'tect® Carhartt pickup covers feature:

- Custom-patterned for your pickup.
- Solution-dye WeatherMax® SL fabric.
- Carhartt® Rain Defender® durable water-repellent (DWR).
- Overlapped triple-needle stitching on stress seams.
- Excellent UV protection.
- Machine washable for cleaning.

Limited warranty - 5 years

We help protect your vehicle, and your selection of this fabric helps to protect our environment! Ultra'tect® uses a superior fade-resistant solution-dye production process that SAVES 1,000 gallons of water for every 1,000 yards of fabric produced.

UVS100® CUSTOM SUNSCREEN

For cars, trucks & SUV's

Featuring the iconic Carhartt logo and a custom-run "brown" reflective finish, this custom patterned sunscreen not only helps reduce the interior temperature when it's hot outside, it also helps protect the vehicle interior from damaging UV rays that enter through the front windshield.

Limited warranty - 1 year

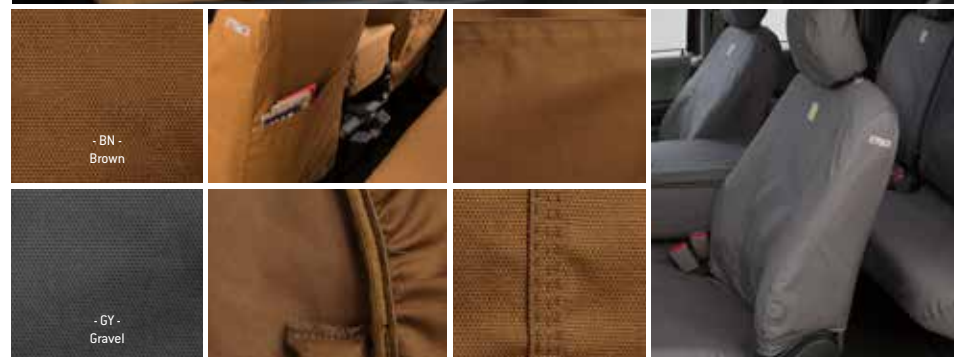

UVS100 Custom sunscreens not only help reduce the interior temperature when it's hot outside, they also protect the vehicle interior from damaging UV rays that are present all year long. These sunscreens are custom fitted to your vehicle to ensure maximum windshield coverage and ease of installation. Sometimes called heat shields, sun shields or UV shields, sunscreens are useful at the beach, work, airport or anywhere you park.

TOUGH, RUGGED & DURABLE SEAT PROTECTION

Make your seats Carhartt tough.

Carhartt SeatSavers in Brown or Gravel. These seat protectors are tough as nails, made with heavy-duty, firm-hand Carhartt duck weave fabric. These seat protectors feature storage pockets with signature Carhartt brass rivets (on the back of most front seats), triple needle stitching on high-stress seams, and Rain Defender® durable water repellent (DWR). Protect your seats from work to woods.

All Carhartt SeatSavers feature:

- Work-tough traditional Carhartt duck-weave fabric.
- Rain Defender® durable water repellent (DWR) protection for spills.
- Front seat patterns include Carhartt riveted pocket on seatback.
- Overlapped triple-needle stitching on stress seams.
- Airbag opening on side seam, if applicable.
- Easy on / easy off, machine washable for cleaning.

Limited warranty - 2 years

CUSTOM-PATTERNED SEAT PROTECTION

Digital Camo

Inspired by Our Nation's Heroes

A bold statement while protecting your seats from daily use.

Breathable, heavy-duty polycotton fabric won't give you that "sticky" feeling like neoprene or vinyl seat covers. You can go anywhere in comfort and still be able to easily remove the seat covers if they become soiled. Just throw them into your home washer and dryer, and then slip them back on. Dirty dog? Kids with ice cream cones? Potted plants? Fun in the sun? Messy mechanics and greasy tools? Stop worrying! With SeatSaver seat protectors, your leather and velour seats are safe. The fabric is protected with a DWR (durable water repellency) finish that blocks most "accidents" from reaching the seats. Like a great pair of jeans, SeatSavers get softer and more comfortable with each washing (but we recommend you re-spray the DWR after every 5 or 6 washings).

Limited warranty - 1 year Due to the unique printing process used, printed fabrics are not warranted against UV fading or abrasion.

DETAILS

- Custom patterned for a perfect fit.
- Easy to install / easy to remove.
- Protect seats from sun, dirt, work week abuse.
- Strong overlapped, double-stitched seams.
- Clean in home washer/dryer.

Durable overlapped, double-stitched seams

Sewn-in elastic tension helps keep SeatSavers in place

Most front seat covers include handy map pockets

CUSTOM-PATTERNED SEAT PROTECTION

An exciting new approach to camo!

"Why be the tree when you can be the predator?"

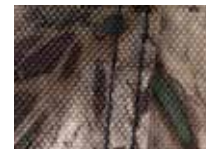

Developed by wildlife artist Stacie Walker, PRYM1 camo uses the look of natural patterns and organic shapes of predators in the wild. Predators have evolved and survived by blending with the environment and becoming part of their natural surroundings. PRYM1 is camo designed by nature!

Printed on a robust 600 denier polyester, which is highly water-resistant and mildew-resistant, these seat covers are comfortable to sit on and will provide excellent protection for your seats.

Limited warranty - 1 year Due to the unique printing process used, printed fabrics are not warranted against UV fading or abrasion.

DETAILS

- Custom patterned for a perfect fit.
- Easy to install / easy to remove.

These aren't just custom seat covers, they're custom seat PROTECTORS! Patterned specifically to fit your vehicle, they slip on to provide protection from sun, dirt, daily driving and extreme working conditions. Covercraft has teamed up with the folks at True Timber Camo in an exclusive program to offer our SeatSaver custom seat covers in their most popular camo patterns. Constructed of durable polycotton fabric with a DWR (durable water repellency) finish, they include all the features that have made SeatSavers a best seller. Four unique camo versions are available.

Limited warranty - 1 year

DRIVER COMFORT

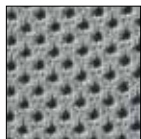

The seat cover designed for driving comfort, with spacer fabric in the seating area.

For bucket seats in Cars, Trucks and SUV's

It's a fact – when you are comfortable, you drive better. SeatGloves® cover the primary sitting area of the seat and feature a center panel constructed of 3-dimensional fabric with a moisture-wicking surface layer. 3-dimensional spacer fabrics combine as many as three different fibers in a simultaneous knitting operation to create a fabric with moisture management on the surface, spacer fibers in the center for breathability, and stretch solid warp knit fabric in the bottom for additional durability. This is a high-performance warp knit – not a laminate and not a foam, so it won't flake or dry out.

Choose from five insert colors.....from mild to wild!

Gray - GY

Tan - TN

Blue - BL

Red - RD

Yellow - YL

Now available for seats with side airbags!

- **Moisture Management** – Seating panel materials help keep you comfortable.
- **Breathable Cushioning** – 3-dimensional center panel provides extra compression resistance, breathability and insulation.
- **Form-Fitting Border** – Stretch fabric has the look and feel of neoprene, but it's also breathable!
- **Easy to Install & Remove** – Semi-custom sizes for most bucket seats, even with side airbags.
- **Easy Care** – Just throw in the washer and dryer to clean.

Limited warranty - 1 year

Patented technology in the PTC heating elements ensures uniform warmth with no potential for overheating.

Limited warranty - 1 year

New Design

This kit can be installed directly onto vehicle seats, as well as on top of or under seat covers like Covercraft's SeatSaver®, SeatGloves® and most breathable aftermarket seat covers.

- "Plug & Play" easy installation.
- SeatHeater® can be installed on both the front and rear seats.
- Covercraft-designed unique "envelopes" securely hold the heating elements.

FOR JEEP® MODEL VEHICLES

WORLD'S BEST DASHMATS®

Since 1979 DashMat® has been the most recognized, best selling dash protector available. Custom-patterned for a perfect fit, DashMat helps protect the dash surface from UV sun and/or cover blemishes and imperfections in older dashboards.

All DashMats:

- Help keep interior cooler in summer & warmer in winter.
- Help reduce hazardous windshield glare.
- All vents & sensor openings pre-cut for a factory finish look.
- Passenger-side air bag opening included where applicable.
- Hook & loop fasteners included for easy, secure installation.

Original DashMat, still #1.

- Soft Foss® fiber carpet, won't fray or unravel.
- Colorfast, non-shrink, heat & UV resistant.
- Limited lifetime warranty.

Available in 11 Colors

VelourMat has a soft, elegant feel.

- High quality foam-backed velour.
- Two year limited warranty.

Available in 12 Colors

SuedeMat has the look and feel of rich suede.

- The rich appearance and feel of suede-like fabric.
- Two year limited warranty.

Available in 4 Colors

WORLD'S BEST DASHMATS®

Ltd. Edition
by DashMat

A new fabric style that goes with today's vehicle interiors.

- Unique warp-knit design.
- Complements technical fabrics in newer vehicles.
- Two year limited warranty.

Available in 4 Colors

DashMat
UltiMat

The best fitting, best looking dash cover on the market.

Available for most popular pickups & SUV's.

- Soft molded to the exact shape of the dashboard.
- No seams or darts, it's pressure molded from one piece of fabric.
- Soft Foss® fiber carpet won't fray or unravel.
- Colorfast, non-shrink, heat & UV resistant.
- Car patterns are being added, based on popularity (molds must be made).
- Limited lifetime warranty.

Available in 10 Colors

UltiMat® molding process

We buy the complete specific dashboard for a vehicle and our craftsmen create a custom two-piece mold which duplicates the contours and details of the dash.

Special finished Foss® fiber carpet is placed in the mold and shaped using pressure and heat.

The molded carpet, now contoured to the exact shape of the dash, is removed, trimmed and finished.

Rear Deck DashMat

- Soft Foss® fiber carpet, won't fray or unravel.
- Colorfast, non-shrink, heat & UV resistant.
- Hook & loop fasteners included for easy, secure installation.
- Limited lifetime warranty.

Available in 11 Colors

CUSTOM UV WINDSHIELD SUNSCREENS

UVS100® CUSTOM SUNSCREEN

Now Choose From 5 Colors and
1200+ CUSTOM Patterns

The only windshield sunscreen to earn a U.S. Patent....the sunscreen that pioneered a product segment.....now available in colors! When the UVS100® was created back in 1985, it was so unique it was granted a Design Patent. And even though there are plenty of knock-offs on the market now, we still make the UVS100 Custom Sunscreen by hand, one unit at a time, from laminating the panels to cutting the pattern....these are truly Crafted2Fit®.

- Custom patterned - not a universal or "almost" fit.
- Triple laminate construction with insulation barrier.
- Reflective outer layer.
- Easy to use - pre-sewn panels quickly accordion fold.
- Available in 5 colors.

Limited warranty - 90 days

UVS100 Custom sunscreens not only help reduce the interior temperature when it's hot outside, they also protect the vehicle interior from damaging UV rays that are present all year long. These sunscreens are custom fitted to your vehicle to ensure maximum windshield coverage and ease of installation. Sometimes called heat shields, sun shields or UV shields, sunscreens are useful at the beach, work, airport or anywhere you park.

Easy accordion fold installation

Just unfold and position across the windshield,
then fold down sun visors.

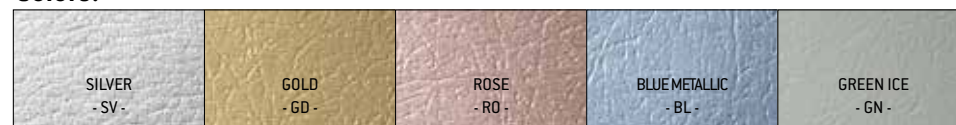

CUSTOM UV WINDSHIELD SUNSCREENS

For Ford logo options

see page 16

Colors:

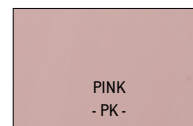

Show your support for Breast Cancer Awareness

with "Covers for Causes". Covercraft will contribute a percentage of our profits from the sales of these UVS100 Sunscreens to breast cancer research programs.

The Covercraft "Covers for Causes" pink logo is proudly silk-screened across the center area of the UVS100® Custom Sunscreen.

UVS100® CUSTOM SUNSCREEN

This premium quality, custom-patterned folding sunscreen has a reflective fabric on the outer side, soft felt on the inside. Both fabrics are laminated to a foam core board.

FLEX SHADE® UV WINDSHIELD SUNSCREEN

High-performance radiant barrier material uses laminate construction with insulating foam and a clear mylar film on the inside. The side that faces out uses a metalized polyester laminate finish to reflect up to 97% of the sun's damaging UV rays.

- Laminated construction for insulation.
- Radiant barrier material.
- Outer reflective surface.
- Lightweight, easy to handle.

Limited warranty - 90 days

Custom Patterned To Follow the Outline
of the Windshield

FRONT END MASKS

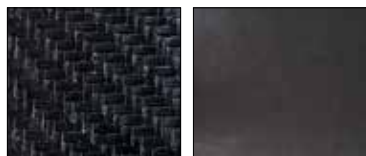

"The Original Car Bra"

SINCE 1961

- **Double Padding** - At critical areas, prevents wear-thru and protects finish.
- **Maximum Protection** - 25 oz. flannel-backed vinyl with exclusive Memory Fit and UV-resistant top coat.
- **Top/Double Stitch** - Strengthens, adds detail and delivers a better body-hugging fit.
- **Backing** - Super soft flannel keeps paint scratch-free.
- **No Loose Parts** - Everything is attached to the bra.
- **Easy Installation** - No tools required. No drilling, no Velcro®.
- **Multi-Piece Design** - Hood opens, headlights and headlight wipers operate with the bra in place.

PROTECTION FOR WHATEVER YOU DRIVE™

PET ACCESSORIES

The "Ultimate" Dog Bed

For home use or travel – a bed to call "home"

- Easily fits in the back of an SUV or wagon.
- Strong polycotton drill or polyester suede fabrics with durable water-repellent finish.
- Fabric "breathes" to assure comfort any time of year.
- Padded bolsters and floor pad provide five-star canine comfort.
- Three-side bolster provides room to "stretch out".
- Base padding is "egg crate" foam and sheet-style batting that won't bunch up and turn "lumpy".
- Twin-zippers allow easy removal of padding from both sections.
- Easy care – machine washable.
- Choose from fifteen (15) colors and four (4) sizes.

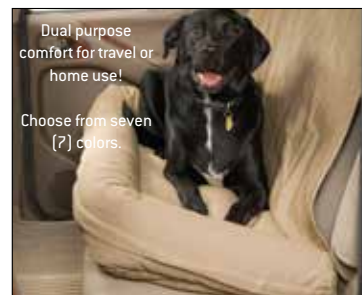

Limited warranty - 90 days

Back Seat Dog Bed ▽

This won't protect all of your back seat like one of our seat protectors, but it sure will provide comfort for your traveling canine!

- 46" X 19" – Fits most cars, SUV's and pickups.
- Strong polycotton drill construction.
- Non-slip grip bottom PLUS anchor loops for seat belts.
- Hook & loop opening at seatback cover base for optional restraint anchor strap.
- Bolster and pad are easy to remove when cover needs washing.
- Bolster and pad feature waterproof nylon covers.
- Extended flap on bolster zipper cover has hook & loop security tab.
- Easy to install and remove from vehicle.

Limited warranty - 90 days

Dual purpose
comfort for travel or
home use!

Choose from seven
(7) colors.

Canine Travel Seatback Barrier

30" tall x 18" wide

Universal-fit barrier helps keep your canine in the backseat area, which is the safer way to travel for both you and your pet. Dogs traveling in the front seat area can be injured by airbags and even ejected through the front windshield in an accident!

- Fits most cars, SUV's & vans with two front bucket seats and adjustable headrest.
- Adjustable webbing straps secure around headrest and seatbases.
- Mesh construction for both air circulation and visibility.
- Easy to remove and fold for storage.
- Handy storage pocket for leash, treats, etc.
- Clean with a soap solution, rinse and hang to dry.

Limited warranty - 90 days

Rear Seat Hammock

A quick and easy cover to help keep the vehicle interior cleaner.

- Coated polyester.
- 56 inches wide x 54 inches long.
- Available in 4 interior-complementing colors.

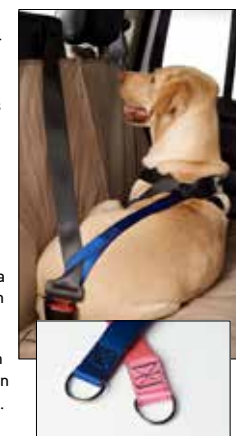

Limited warranty - 90 days

Travel Safe Harness

- Safety – any stress will be placed on your dog's chest instead of its delicate neck.
- Comfort – the tether/leash has two openings for the seat belt, one that allows for some movement (like head out the window) and one that severely restricts movement.
- Strength – webbing exceeds S.A.E. standards for human seatbelts.
- Convenience – easy to use, can be left on all day, in & out of the car.
- Vet Approved – designed with input from a veterinary orthopedic surgeon and design engineer.

Available with BLUE or PINK tether/leash that acts as a walking leash, and a sewn-in D-ring is also included for a regular leash.

Limited warranty - 90 days
